IT REFUSED TO FLY

But Was a Pretty Model of a Flying Machine.

DAYS OF LABOR WERE LOST

Hope of Months Cast Down in a Minute. The Inventor Thought He Had Solved the Problem, but Like Others Who Have Gone Before, He Hadn't.

There is a sad and disappointed man in the city today, and he has been in that condition for well nigh a week.

A few months ago he conceived the idea of building a flying machine. He had never seen one of these things nor did he understand the principle upon which so many men have worked and come to grief. The plan came to him one day when he was at work, and he lost no time in carrying it out. He happens to be a machinist of no mean ability, and he was not long in securing a few light rods of steel, some screws and the necessary tools. He set to work, and every hour of his spare time was spent on the machine. What he wanted was a series of levers so arranged and compounded that a slight force exerted by the operator of the boat would produce a movement of the sails, which were to be made in the form of wings. The principle he had in mind was to make the car the body of the bird, the sails its wings, and the human operator the instinct to guide and move the machine. After several ineffectual attempts he succeeded in getting the levers to work satisfactorily, and then he prepared the car. It was only a model, but if he could establish the motion in this, he argued, he could devote it to some practical use. At length all was completed, the silk sails were in place, and every bit of metal had been polished until the machine looked the perfect thing the inventor had hoped. It was held on his hand in a room, the levers were set in motion and the wings began to move. There was hope in his breast just then, but it did not last long. The sails flapped as well as he could wish, but there was no forward motion. The machine stayed just where it was. The inventor imagined that something was out of order, and the craft was overhauled and tested again. The second trial, however, was not more successful than the first, but there were numerous others with the same result. The inventor, however, is not discouraged, but he refuses to have his name made public until he has a machine that will go. He declares that he will not ruin himself in his experiments, but will devote only such time to the plan as he could not otherwise use.

SEPARATED THE FIGHTERS.

A Young Lady Stopped a Battle on Broadway.

An incident on Broadway yesterday afternoon was a battle between two small boys who were going at each other as though they had been trained for the ring. They had a small audience of youngsters, and in a few minutes a bevy of society young women came that way. One of these could not endure the sight of battle, and walking into the midst of the fray she caught a young warrior in each hand, gave them a thorough shaking, and ordered them to go home. They went, and the young lady walked on with her companions as though nothing had happened.

PRESBYTERIANS PROTEST.

They Want Relief for the Suffering Armenians.

Among the business transacted by congress yesterday was the presentation of a petition by Representative Danford of the next district down the river. It was signed by 44 ministers and 61 elders of the Steubenville presbytery, and represents an action taken by that body at its last meeting. The petition protests against the inhuman treatment of the Armenians, and asks that the government take steps to stop the atrocities in Armenia. Several similar petitions have been presented, dealing with the same question, but this is the first from Ohio.

MRS. SIMMERS DEAD.

An Estimable Lady Passed Away at Canton.

A telegram was received here last night which announced the death of Mrs. Isaac I. Simmers, at Canton. The lady was the mother of Mr. F. I. and D. Simmers, of this city, Bert Simmers, of Wellsville, and was an estimable lady. She has suffered for many years from heart trouble, and has been confined to her room for several months, very ill. Mrs. F. J. Simmers, accompanied by Bert Simmers, went to Canton this afternoon

to attend the funeral. Day Simmers having gone last night. F. I. Simmers, who is in the east on business, was notified.

BURNED BY GREASE.

Miss Annie Kerr Has a Sore Arm and Face.

When Miss Annie Kerr was preparing breakfast at her home on Ridge-way avenue she had occasion to put grease into a skillet. In some manner it took fire, and Miss Kerr, fearing the flames would spread, made an ineffectual attempt to blow out the flame. When her face was close to the skillet the grease exploded and the flame enveloped her head and arm. With a shriek she ran from the room, and it was discovered that her face was badly burned and one arm was blistered. Luckily the flames did not ignite her clothing.

NO HOSPITAL MEETING.

Illness Prevents the Presence of a Prominent Speaker.

There will be no hospital meeting at the Young Men's Christian association, as was announced in this paper last evening, but it is not the fault of the ladies who are deeply interested in the matter. Some of the leaders of the movement could not be present, owing to illness, and the meeting was postponed. The movement is by no means dead, but on the other hand is as lively as ever, and will doubtless result in success, as the ladies are in earnest. The meeting will be held in the near future.

ANOTHER WELCOME.

This Time It Was the Grand Army Honoring Governor McKinley.

Hon. A. H. McCoy went to Canton yesterday afternoon to attend the welcome of the Grand Army to Governor McKinley. A reception was held at one of the leading hotels in the afternoon and a big campfire at night. Governor McKinley spoke in a happy strain and did not touch upon politics, and Mr. McCoy was also among the speakers. Many state officers of the Grand Army were present, and the occasion was one of great rejoicing.

BROKE A RIB.

W. A. Finley Sustained a Peculiar Accident.

W. A. Finley, a well known resident of East End, is suffering from a broken rib which he sustained in a peculiar accident. He was shaving down the handle of a wheelbarrow with a draw knife when the barrow slipped from the fastening which held it in place and the handle came violently against Finley's side. He felt a sharp pain, but did not know he was badly hurt until he consulted a physician and learned that a bad fracture of a rib had been sustained.

IN A HOSPITAL.

Harry MacKenzie Was Not Lost in Pittsburgh.

For several days there has been a story floating around the city that Harry MacKenzie, the photographer, had left town and would not return. There was no question about him being away, but last night he came back. He went to Pittsburgh over a week ago on business, and while there was seized with an attack of stomach trouble. He was very ill, and went at once to Mercy hospital, where he was cared for until in a fit condition to travel.

THE WIRE WAS DOWN.

The Old Trolley Still at Its Tricks on the Wellsville Road.

The trolley wire of the street car line was down again last night, the first time for several weeks, and there was no end of annoyance on the Wellsville road. The wire did not break but became detached from the poles near the camp ground, and passengers were transferred. The repair crew were ordered out, and soon had the wire in place again, but not before passengers knew there was deep mud on the Wellsville road.

SCARLATINA IN CHESTER.

Not Scarlet Fever, as Was Reported Today.

There was a rumor on the street today that scarlet fever had broken out in Chester and several cases had already developed. Investigation showed that it was the wildest kind of a story and probably came from the fact that a member of the family of Columbus Cunningham has the scarlatina. The child is very ill, but its death is not expected.

Mrs. Gould Is Better.

Mrs. Gould, the wife of Squire A. R. Gould, who has been very sick for several weeks, began to improve this morning and it is now believed that she will live. The lady has been in a most dangerous condition.

HOUSE BOAT LICENSES

An Exceptionally Good Bill Introduced at Columbus.

THE SHANTIES UNDER THE LAW

Each One is to Have a License From Some County of the State, and Must Pay for It—Kentucky Has a Similar Measure in the Hopper.

The shanty boat must get off the rivers of Ohio or take out a license for existence, if a bill now before the legislature becomes a law.

Not long ago a Kentucky legislator presented a measure governing life on the navigable waters of the state. Some member of the Ohio legislature has thought a good thing and dropped a similar bill into the hopper at Columbus. It requires that it shall be unlawful for any person or persons to live in or to occupy any boat or watercraft as a place of residence or abode on any of the navigable waters of the state, or their tributaries, until a license has been granted to the person or persons living in such craft by the probate judge of the county in which said boat lies or plies. The applicant for license must show good character, set forth under oath his legal residence, the name of the boat or craft on which he resides, the business, trade, or traffic to be engaged in, and, if the head of a family, the names and ages of the members of the family. The name of the boat is to be painted on both sides and the words: "Licensed in—county, Ohio," are also to be painted on both sides. A license fee of \$10 and the probate fee of \$2 must be paid before a license, good for one year, is issued. The bill, if passed, will have a good effect upon some people who live in shanty boats on the rivers, particularly the Ohio, where no end of disreputable characters have found refuge. With every boat located by a license number it will not be difficult to keep track of those with shady reputations.

WINDING UP BUSINESS.

Old Cases Settled in Common Pleas Court.

SPECIAL TO NEWS REVIEW.

LISBON, Jan. 22.—The last echoes of this term of common pleas court were heard today. A. G. Smith got a judgment against the Ohio and Pennsylvania Coal company for \$400, and the divorce proceedings of T. J. Heckathorn against G. W. Heckathorn, on the grounds of habitual drunkenness, were dismissed. In the case of John E. Goddard against John S. Dixon, the perpetual injunction was modified and the case will be heard in court on its merits. J. P. Heckathorn was given the title to a lot in Jethro.

The case of Mary B. Thompson against Leroy Rinehart, F. D. Cope versus U. Whitacre and George P. Ikirt against the News Review were dismissed from the docket.

The Medier Shoe company, of Philadelphia, sued William Seanor for \$410.70, the amount of a shoe bill. Although the defendant lives in Pittsburgh he owns property in East Liverpool.

Judge Young today confirmed the appraisal and ordered the sale of the property in the case of J. H. Brookes against A. C. Bradshaw. The property was appraised at \$16,000.

Hon. R. W. Taylor came here from Washington today. He has a case in circuit court tomorrow.

Thomas Scally had his hand taken off by a Nvano train today. He was coming from Niles to Lisbon and jumped off the train at Shelton's grove, being thrown against the car. His escape from being ground to pieces is nothing short of miraculous.

WHO CAN IT BE?

An East Liverpool Woman Wants a Divorce at Lisbon.

SPECIAL TO NEWS REVIEW.

LISBON, Jan. 22.—There was a mild sensation about the court house this morning when it became known that a mysterious petition for divorce had been filed. The petition was filed today, and no word of its contents was given out beyond the mere statement that it was for a divorce, came from East Liverpool and involved some well known people. Nothing could be learned. The names of the interested parties are guarded religiously and no one knows who they are. The wife sues for separation on the grounds of cruelty, and asks alimony as well.

It was learned today that the interested parties are well known people of the city and the husband has a large circle of friends in the political, as well as the business world. He was at one time in the retail business and has been more or less interested in potting. The lady, like her husband,

has many friends, and were the names made public it would create a great sensation in the city. The causes leading to the action are not known for it has been generally understood that they were a happy couple.

NOTHING TO SAY.

Captain Freese Continues to Keep His Peace.

Captain Freese came in from Canton today, and will remain here several days looking after the business of the Canton & East Liverpool. The captain has nothing to say for public or private information, and with that firm yet kindly manner told the reporters that there is nothing new and it will not be long until they can know all there is to know about the railroad. By some who seem to know something of the project it is said there will be developments in the near future.

MANY WIDOWS THERE.

One Square in the City Has no Less Than Twenty.

There is a square in the lower part of the city which is noted among people who know of the matter for the number of widows it contains. Within the boundaries as they are laid out there are no less than 20 widows, all hale and hearty and apparently getting along as well as if their other halves had not passed the dark river. The widows make up about one-half the female population of the square, and the proportion is perhaps greater than in any square of the city.

A RAILROAD STORY.

The Canton and East Liverpool Depot Has Been Located.

It is announced that the last kiln has been fired at the Manley brick yard on Sophia street, and the land will be used for that purpose no more. This has probably given rise to the story that the new railroad depot will be located on the ground. The tale has been extensively circulated in the upper part of the city, and some people are found who believe every word of it. However, they are unable to explain how the road will get to Pittsburgh on that route.

BUILDING NESTS.

The Sparrows Never Sleep Out in the West End.

The accident at the light plant has caused inconvenience for the public, but is a boon for the enterprising sparrows residing in West End. The hoods of arc lights are favorite places for their nests, but when the trimmer comes every day he cleans out the straw and the sparrows are homeless. They have taken advantage of the lull and several lamps in West End show that the little birds have gone to housekeeping under the hoods.

NEW ENGINES.

The Pennsylvania Company Has Some Beauties.

The Pennsylvania has placed itself at the head of railroads so far as passenger motive power is concerned. The new class L fast passenger engines are the acme of perfection, the finest and best of any road in the country. Every part and principle of the big machines is the outcome of practical tests to determine with the most positive results its safety, efficiency and durability.

THEY HAVE A CANDIDATE.

Third Warders Claim to Have a Good Man in Sight.

Certain leading men of politics are talking of a candidate for council from the Third ward, and have a good man in prospect. His name is not given out, but he is said to be one of the leading residents of the ward. It is whispered around that the Second will come smiling to the front with a good selection, and the First will have more candidates than any other ward in the city.

MAY BE A WEDDING.

Only One Way for a Young Printer to Escape.

Edward Frederick was arrested the other evening by Constable Lyon on a charge made out by Miss Lena Roberts. He gave bond for his appearance in court tomorrow, but there is a rumor that the case will be settled by a wedding ceremony without the intervention of the law. The case has been kept very quiet, and only came to the surface today.

NOT A CANDIDATE.

John Anderson Don't Want to be City Clerk.

John A. Anderson, the well known clothing salesman, has decided that he will not this year be a candidate for city clerk. Some of his friends have been urging him to make the race with Jack Harris and J. N. Harley, but he believes the field is too large to make a good race, and has decided to stay on the outside.

KNOCKED OFF A TRUCK

Mr. Crease, of Sewickley, Has Another Accident.

HAPPENED AT THE POWER HOUSE

He Has a Claim Against the City For a Broken Wagon Sustained Last Summer, and Now Has Another—No One Hurt.

Mr. Crease, the Sewickley man who has a claim against the city because his wagon was broken near the power house last summer, has another grievance against the town.

Last summer Mr. Crease was driving near the power house when a wheel of his wagon caught in the track, and the vehicle was damaged. A claim was made against the city and is now in the hands of Solicitor Clark. This morning Mr. Crease was driving near the same place, being seated in his buggy with his two little girls, when a street car came along. The road at that place is narrow, and he did not give way to the car. The result was more damage to the buggy, but no one was hurt. The coincidence was deeply regretted by the Sewickley man, but that did not prevent him from asserting that some one would have to pay the bill for repairing the buggy.

PASSENGER MEN.

Were Here Today Talking That St. Louis Trip.

Messrs. Sankey and McWatters, of the passenger department of the Pennsylvania company, were here today conferring with the committee of the McKinley club who have in charge the trip to St. Louis. The gentlemen could not give the club a rate because the Central Traffic association has not yet decided. They will meet, however, within two weeks, and will then be able to let all who desire to attend the convention know the cost of transportation. There is reason to believe that the East Liverpool delegation will be large. Mr. Sankey will accompany the party.

FEEDING THE POOR.

The Township Trustees Have Had Their Hands Full.

The township trustees today sent away their monthly statement, and were surprised when they summed up the business done to see that it was greater than any made out since the strike. There were a great many applicants who got nothing because of certain irregularities, which the trustees could not overlook, but in spite of the manner in which the number was kept down the business done was far too much for comfort. The trustees have experienced difficulty in accounting for the rush. The month cost \$422.41. There are 60 families making a total of 250 person on the list.

STOLE HIS COAT.

Robert Moore Is Now Without an Overcoat.

Robert Moore, the Broadway coal dealer, was the victim of a sneak thief last night. He had occasion to leave his office for a few minutes, and only going a short distance he left his overcoat in the room and the door open. When he returned the coat was gone, some thief having quietly slipped away with it. As usual in these cases there is no clue. There is a gang of sneak thieves in the lower part of the city, and during the past few weeks many articles have been stolen. They are an experienced crowd and never leave a trace.

Amused a Crowd.

A leading member of the Young Men's Christian association created amusement for his friends last night by walking along Market street with a placard on his back bearing an inscription. He did not know it was there, but when he discovered its presence wondered what had become of the small boy who had fastened the pin.

Selling Their Wheels.

Several bicycle agents were in town yesterday, and made arrangements with their agents for the coming season. There is no reduction in price, and one of the gentlemen remarked in conversation with several wheelmen that the manufacturers of bicycles would enter a compact before they would cut the price.

Where They Belong.

"Are there any more candidates for your office in the air?" was asked an aspiring politician today, the questioner meaning if there were any more mentioned.

"I don't know," came the answer, "but I guess that's where they belong. There's no room for them on the ground."

MRS. SIMMERS DEAD.

An Estimable Lady Passed Away at Canton.

A telegram was received here last night which announced the death of Mrs. Isaac I. Simmers, at Canton. The lady was the mother of Mr. F. I. and D. Simmers, of this city, Bert Simmers, of Wellsville, and was an estimable lady. She has suffered for many years from heart trouble, and has been confined to her room for several months, very ill. Mrs. F. I. Simmers, accompanied by Bert Simmers, went to Canton this afternoon

to attend the funeral. Day Simmers having gone last night. F. I. Simmers, who is in the east on business, was notified.

BURNED BY GREASE.

Miss Annie Kerr Has a Sore Arm and Face.

When Miss Annie Kerr was preparing breakfast at her home on Ridge-way avenue she had occasion to put grease into a skillet. In some manner it took fire, and Miss Kerr, fearing the flames would spread, made an ineffectual attempt to blow out the flame. When her face was close to the skillet the grease exploded and the flame enveloped her head and arm. With a shriek she ran from the room, and it was discovered that her face was badly burned and one arm was blistered. Luckily the flames did not ignite her clothing.

NO HOSPITAL MEETING.

Illness Prevents the Presence of a Prominent Speaker.

There will be no hospital meeting at the Young Men's Christian association, as was announced in this paper last evening, but it is not the fault of the ladies who are deeply interested in the matter. Some of the leaders of the movement could not be present, owing to illness, and the meeting was postponed. The movement is by no means dead, but on the other hand is as lively as ever, and will doubtless result in success, as the ladies are in earnest. The meeting will be held in the near future.

HOUSE BOAT LICENSES

An Exceptionally Good Bill Introduced at Columbus.

THE SHANTIES UNDER THE LAW

Each One is to Have a License From Some County of the State, and Must Pay for It—Kentucky Has a Similar Measure in the Hopper.

The shanty boat must get off the rivers of Ohio or take out a license for existence, if a bill now before the legislature becomes a law.

Not long ago a Kentucky legislator presented a measure governing life on the navigable waters of the state. Some member of the Ohio legislature has thought a good thing and dropped a similar bill into the hopper at Columbus. It requires that it shall be unlawful for any person or persons to live in or to occupy any boat or watercraft as a place of residence or abode on any of the navigable waters of the state, or their tributaries, until a license has been granted to the person or persons living in such craft by the probate judge of the county in which said boat lies or plies. The applicant for license must show good character, set forth under oath his legal residence, the name of the boat or craft on which he resides, the business, trade, or traffic to be engaged in, and, if the head of a family, the names and ages of the members of the family. The name of the boat is to be painted on both sides and the words: "Licensed in — county, Ohio," are also to be painted on both sides. A license fee of \$10 and the probate fee of \$2 must be paid before a license, good for one year, is issued. The bill, if passed, will have a good effect upon some people who live in shanty boats on the rivers, particularly the Ohio, where no end of disreputable characters have found refuge. With every boat located by a license number it will not be difficult to keep track of those with shady reputations.

WINDING UP BUSINESS.

Old Cases Settled in Common Pleas Court.

Special to NEWS REVIEW.

LISBON, Jan. 22.—The last echoes of this term of common pleas court were heard today. A. G. Smith got a judgment against the Ohio and Pennsylvania Coal company for \$400, and the divorce proceedings of T. J. Heckathorn against G. W. Heckathorn, on the grounds of habitual drunkenness, were dismissed. In the case of John E. Goddard against John S. Dixon, the perpetual injunction was modified and the case will be heard in court on its merits. J. P. Heckathorn was given the title to a lot in Jethro.

The case of Mary B. Thompson against Leroy Rinehart, F. D. Cope versus U. Whitacre and George P. Ikirt against the News Review were dismissed from the docket.

The Medler Shoe company, of Philadelphia, sued William Seanor for \$410.70, the amount of a shoe bill. Although the defendant lives in Pittsburgh he owns property in East Liverpool.

Judge Young today confirmed the appraisal and ordered the sale of the property in the case of J. H. Brookes against A. C. Bradshaw. The property was appraised at \$16,000.

Hon. R. W. Taylor came here from Washington today. He has a case in circuit court tomorrow.

Thomas Scalley had his hand taken off by a Nyano train today. He was coming from Niles to Lisbon and jumped off the train at Shelton's grove, being thrown against the car. His escape from being ground to pieces is nothing short of miraculous.

The petition was filed today, and no word of its contents was given out beyond the mere statement that it was for a divorce, came from East Liverpool and involved some well known people. Nothing could be learned. The names of the interested parties are guarded religiously and no one knows who they are. The wife sues for separation on the grounds of cruelty, and asks alimony as well.

It was learned today that the interested parties are well known people of the city and the husband has a large circle of friends in the political, as well as the business world. He was at one time in the retail business and has been more or less interested in potting. The lady, like her husband,

has many friends, and were the names made public it would create a great sensation in the city. The causes leading to the action are not known for it has been generally understood that they were a happy couple.

NOTHING TO SAY.

Captain Freese Continues to Keep His Peace.

Captain Freese came in from Canton today, and will remain here several days looking after the business of the Canton & East Liverpool. The captain has nothing to say for public or private information, and with that firm yet kindly manner told the reporters that there is nothing new and it will not be long until they can know all there is to know about the railroad. By some who seem to know something of the project it is said there will be developments in the near future.

MANY WIDOWS THERE.

One Square in the City Has no Less Than Twenty.

There is a square in the lower part of the city which is noted among people who know of the matter for the number of widows it contains. Within the boundaries as they are laid out there are no less than 20 widows, all hale and hearty and apparently getting along as well as if their other halves had not passed the dark river. The widows make up about one-half the female population of the square, and the proportion is perhaps greater than in any square of the city.

A RAILROAD STORY.

The Canton and East Liverpool Depot Has Been Located.

It is announced that the last kiln has been fired at the Manley brick yard on Sophia street, and the land will be used for that purpose no more. This has probably given rise to the story that the new railroad depot will be located on the ground. The tale has been extensively circulated in the upper part of the city, and some people are found who believe every word of it. However, they are unable to explain how the road will get to Pittsburgh on that route.

BUILDING NESTS.

The Sparrows Never Sleep Out in the West End.

The accident at the light plant has caused inconvenience for the public, but is a boon for the enterprising sparrows residing in West End. The hoods of arc lights are favorite places for their nests, but when the trimmer comes every day he cleans out the straw and the sparrows are homeless. They have taken advantage of the lull and several lamps in West End show that the little birds have gone to housekeeping under the hoods.

NEW ENGINES.

The Pennsylvania Company Has Some Beauties.

The Pennsylvania has placed itself at the head of railroads so far as passenger motive power is concerned. The new class L fast passenger engines are the acme of perfection, the finest and best of any road in the country. Every part and principle of the big machines is the outcome of practical tests to determine with the most positive results its safety, efficiency and durability.

THEY HAVE A CANDIDATE.

Third Warders Claim to Have a Good Man in Sight.

Certain leading men of politics are talking of a candidate for council from the Third ward, and have a good man in prospect. His name is not given out, but he is said to be one of the leading residents of the ward. It is whispered around that the Second will come smiling to the front with a good selection, and the First will have more candidates than any other ward in the city.

MAY BE A WEDDING.

Only One Way for a Young Printer to Escape.

Edward Frederick was arrested the other evening by Constable Lyon on a charge made out by Miss Lena Roberts. He gave bond for his appearance in court tomorrow, but there is a rumor that the case will be settled by a wedding ceremony without the intervention of the law. The case has been kept very quiet, and only came to the surface today.

NOT A CANDIDATE.

John Anderson Don't Want to be City Clerk.

John A. Anderson, the well known clothing salesman, has decided that he will not this year be a candidate for city clerk. Some of his friends have been urging him to make the race with Jack Harris and J. N. Harley, but he believes the field is full enough to make a good race, and has decided to stay on the outside.

KNOCKED OFF A TRUCK

Mr. Crease, of Sewickley, Has Another Accident.

HAPPENED AT THE POWER HOUSE

He Has a Claim Against the City For a Broken Wagon Sustained Last Summer, and Now Has Another—No One Hurt.

Mr. Crease, the Sewickley man who has a claim against the city because his wagon was broken near the power house last summer, has another grievance against the town.

Last summer Mr. Crease was driving near the power house when a wheel of his wagon caught in the track, and the vehicle was damaged. A claim was made against the city and is now in the hands of Solicitor Clark. This morning Mr. Crease was driving near the same place, being seated in his buggy with his two little girls, when a street car came along. The road at that place is narrow, and he did not give way to the car. The result was more damage to the buggy, but no one was hurt. The coincidence was deeply regretted by the Sewickley man, but that did not prevent him from asserting that some one would have to pay the bill for repairing the buggy.

PASSENGER MEN.

Were Here Today Talking That St. Louis Trip.

Messrs. Sankey and McWatters, of the passenger department of the Pennsylvania company, were here today conferring with the committee of the McKinley club who have in charge the trip to St. Louis. The gentlemen could not give the club a rate because the Central Traffic association has not yet decided. They will meet, however, within two weeks, and will then be able to let all who desire to attend the convention know the cost of transportation. There is reason to believe that the East Liverpool delegation will be large. Mr. Sankey will accompany the party.

FEEDING THE POOR.

The Township Trustees Have Had Their Hands Full.

The township trustees today sent away their monthly statement, and were surprised when they summed up the business done to see that it was greater than any made out since the strike. There were a great many applicants who got nothing because of certain irregularities, which the trustees could not overlook, but in spite of the manner in which the number was kept down the business done was far too much for comfort. The trustees have experienced difficulty in accounting for the rush. The month cost \$422.41. There are 60 families making a total of 250 person on the list.

STOLE HIS COAT.

Robert Moore Is Now Without an Overcoat.

Robert Moore, the Broadway coal dealer, was the victim of a sneak thief last night. He had occasion to leave his office for a few minutes, and only going a short distance he left his overcoat in the room and the door open. When he returned the coat was gone, some thief having quietly slipped away with it. As usual in these cases there is no clue. There is a gang of sneak thieves in the lower part of the city, and during the past few weeks many articles have been stolen. They are an experienced crowd and never leave a trace.

Amused a Crowd.

A leading member of the Young Men's Christian association created amusement for his friends last night by walking along Market street with a placard on his back bearing an inscription. He did not know it was there, but when he discovered its presence wondered what had become of the small boy who had fastened the pin.

Selling Their Wheels.

Several bicycle agents were in town yesterday, and made arrangements with their agents for the coming season. There is no reduction in price, and one of the gentlemen remarked in conversation with several wheelmen that the manufacturers of bicycles would enter a compact before they would cut the price.

Where They Belong.

"Are there any more candidates for your office in the air?" was asked an aspiring politician today, the questioner meaning if there were any more mentioned.

"I don't know," came the answer, "but I guess that's where they belong. There's no room for them on the ground."

GEO. C. MURPHY

The Clothier, Hatter and Furnisher, Will Save You Money.

We feel kind of lonesome since Christmas. We had gotten used to the scramble and hustle of the holiday times, and the after-quiet makes us feel as if we had been dumped in the middle of a prairie. Rent and a hundred other expenses go on just as before, and as we can't make money anyway, we might as well lose it with a crowd as in solitude. So here goes prices to make things hum at our store in the Diamond. Come in and look through our superb stock of Overcoats, pick out one to suit you, and deduct one-fourth off the price. For example, if a coat is marked \$16 take it along at \$12; or if marked at \$8 take it along at \$6. In our suit and pants department we will make you reductions that will open your eyes. Come at once as our stock must be reduced.

BIG DAMAGES ASKED

An East Rochester Physician Was Defamed.

HIS PRACTICE ALMOST RUINED

He Thinks It Was Worth \$10,000 to Him and Wants the Court to Collect It—The Second Suit From a Conversation—Lisbon News.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—Patrick McDonald, a farmer residing at the village of East Rochester in the western part of the county, was today made defendant in a suit for damages filed by Doctor M. S. Derringer for \$10,000.
The suit grew out of a conversation, according to the petition, in which McDonald made the statement that Derringer had been guilty of adultery. The correspondent he said was Ida M. Fox, a young married woman of that place, and her husband was about to make a fuss over the matter. Doctor Derringer claims the statement was made to injure him, and has answered its purpose. He thinks his practice has been woefully hurt and that his reputation has been seriously damaged. That conversation has been the means of producing two damage suits the other having been filed last October by Mrs. Fox who wants \$5,000 from McDonald.

SENTENCES IN PROBATE.

Two Old Liquor Charges Were Disposed Of.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—Judge Young disposed of a few cases today and wiped them off his docket. Leroy Rinehart, of East Liverpool, got \$25 and costs for breaking the liquor law, and the judge tacked on five days in the county jail so he would not forget it. A Lisbon saloonist, was under the same charge and got the same sentence.

Judge Young also authorized a settlement between the Mutual Masonic Insurance association and H. A. Cameron, an heir of C. B. Cameron, who committed suicide in a Cleveland hotel last August. The claim was on a policy for \$3,000, and was settled by the company paying \$1,200.

KILLING OFF DOGS.

They Will No Longer Menace Jordanville Health.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—The case of small-pox in Jordanville is closely guarded and there is no danger of the disease spreading. There has been a great slaughter of dogs, and few, if any, are left. The Lewis family claim that their daughter is not ill with small-pox, but the health board have not relaxed their vigilance. As soon as the patient can be moved, she now being very ill, the family will be taken out of the precincts of the village.

THE DELINQUENT SALE.

Liverpool Buyers Were There to Buy.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—A large amount of property was today sold at the treasurer's office to satisfy taxes that have become delinquent. The total amount of Liverpool property sold was \$1,881.57 and the principal buyers were Colonel Hill, A. R. Mackall and J. J. Purinton. They got some bargains for the property did not bring high prices. Land in other parts of the county brought no better returns.

Some of the Sick.

Mrs. Anne Colclough, an old lady residing on Thompson hill and well known to many people in the city, is suffering from a complication of diseases and the infirmities of old age, and is very low.

D. H. Yant is home from Fairview where he was called to see his father who is still very low from heart trouble.

Robert Logan is recovering from the attack of typhoid fever which it was feared would cost him his life.

No Cover For the Wagon.

A little group of men were talking about the movement, now on in some cities, for the covering of patrol wagons, when one said:

"One of the strong features of the law is the fear of it. Take that away and the law loses much of its force. If you would put a cover on the patrol, more than one fellow who would feel keenly the disgrace of a ride through the streets would not fear arrest," and others assented.

Pulled Off the Fight.

A cock fight was pulled off in West End last evening after a great deal of difficulty. The owners of the chickens are boys and the father of one found that the match had been arranged. He followed them and drove them from one place, but they finally secured a spot where the battle could be fought without outside interference.

More Workers.

So numerous have been the additions to the number of Italian laborers employed on the Cunningham farm in getting out stone for the

new bridge that Contractor Shrader has a small army there at present, and the work is being pushed with vigor. Parties interested in the bridge were in town today on business connected with the enterprise.

Where to Get Bargains.

The housewife who is after bargains these days can find no better bulletin than the advertising columns of the NEWS REVIEW. Patronize the merchants whose names are there found, and it will pay you. The mark down sales after the holidays are all in progress, and merchandise of every description is being sold cheap.

The Flora Staniford Company.

The Flora Staniford company played to a large audience at the Grand last evening. The play was an attractive one and the crowd was pleased. The company remains during the entire week, and will doubtless play to good houses. The play tonight is "A Fireman's Ward."

Throat Trouble Caused Death.

Marie, the 10-months-old child of Mr. and Mrs. Laurence Reed, of Fifth street, died this morning after a struggle with throat trouble. Interment will be made tomorrow afternoon at 2 o'clock in Riverview cemetery. The bereaved parents have the sympathy of a large circle of friends.

Lost Her Way.

A little girl lost her way on Washington street this morning, and was crying pitifully for her mother when a friend of the family found her and took her home. She resides in Bradshaw addition.

There is good reason for the popularity of Chamberlain's Cough remedy. Davis & Buzard, of West Monterey, Clarion company, Pa., says: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough remedy and they now recommend it with the rest of us." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

A Short Session.

The board of education met last evening, passed upon a few bills, and then went home. There was little business to look after, and the board had no desire to stretch out the meeting.

Carlton Cornwell, foreman of the Gazette, Middletown, N. J., believes that Chamberlain's Cough remedy should be in every home. He used it for a cold and it effected a speedy cure. He says: "It is indeed a grand remedy. I can recommend to all. I have also seen it used for whooping cough, with the best results." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

Clay Machinery.

Several large clay presses were shipped from the city today. The industry has attained much larger proportions than is generally known, and gives employment to a large number of men.

A Startling Admission.

In New York City, for five consecutive years, the proportion of Deaths from Consumption has been three in every Twenty Persons.

Epidemics of Cholera, Yellow Fever and other diseases of similar character, so terrible in their results, occasion wide spread alarm and receive the most careful consideration for their prevention and cure, while consumption receives scarcely a thought, yet the number of their victims sinks into insignificance when compared with those of consumption. Comparatively few people know what to do for their loved ones when they see them gradually lose strength, lose color, manifest feeble vitality and emaciation, or develop a cough, with difficult breathing, or hemorrhage. Cod liver oil was for a long time given in all such cases, but the poor success attending its use coupled with its nauseating taste has led many practitioners, as well as the public at large, to place their main reliance in Dr. Pierce's Golden Medical Discovery. It deserves early attention and will prove effectual in every case but in a large percentage of cases, and we believe that fully 98 per cent of all cases of consumption can, if taken in the early stages of the disease, be cured with the "Discovery." Dr. Pierce does not ask people to believe until they have investigated for themselves. A pamphlet has been published having the names, addresses and photographs of a large number of those cured of consumption, chronic coughs, asthma, chronic nasal catarrh and kindred maladies which will be mailed free to those sending for it with their name and address upon a postal card, or you can have a medical treatise, in book form of 160 pages, mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experiences.

ARE WE CIVILIZED?

One Who Analyzes Fashions Says We Are Still Half Savage.
The prevailing motive not to appear singular accounts for the continuance of certain fashions, many being the results of superstition, religious observances and the desire to be "up to date." We are acquainted with what facility hair may be fashioned into various fantastic shapes for personal adornment, and when a part through the middle is decreed it is worn without regard to contour, and whether it may add to or detract from one's intellectual appearance no thought is given.

If fashion says crimp, we crimp; if curl and wave, we obey. And the custom of keeping the head closely shaved prevails, as among the Fijian women, while the men cultivate long hair, thus reversing the conditions met with among highly civilized nations.

The lips, ears and nose offer a variety of possible alterations and are a means of ornamental display, and, says Captain Cook, over a hundred years ago, in describing the naked savages on the east coast of Australia, their principal form of ornamentation was a bone, which they thrust through the cartilage which divides the nostrils from each other. The lip ornamentations by the Bolocundo Indians and the Thinket Bella are disgusting in the extreme, and in the heart of Africa among the Bongo women a clamp or clasp is worn at the corners of the mouth, as if they wanted to contract the orifice and literally put a curb on its possibilities.

The teeth cannot escape, and the Malays view in disgust the natural tint and stain theirs a jet black.

One views in horror the Chinese method of foot binding, but which is much mitigated when considering by degrees the fashionable toe used in the last century.

Thus we can see that fashion's fetters torture and harass equally civilized men and savage vanity. Are we not the same in kind, but differing only in degree from the savage?—New York Advertiser.

Edmund Halley.

Probably the greatest service which Halley ever rendered to human knowledge was the share which he took in bringing Newton's "Principia" before the world. In fact, as Dr. Glaisher, writing in 1888, has truly remarked, "but for Halley the 'Principia' would not have existed."

Halley had the genius to perceive the tremendous importance of Newton's researches, and he ceased not to urge upon the somewhat reclusive man of science the necessity for giving his discoveries publication. Having been authorized by the Royal society to undertake the printing of the book at his own expense, Halley spared no pains in pushing forward the publication of his illustrious friend's great work, so much so that in the same year he was in a position to present a complete copy to King James II, with a proper discourse of his own. Halley also wrote a set of Latin hexameters, in praise of Newton's genius, which he printed at the beginning of the work. The last line of this specimen of Halley's poetic muse may be thus rendered, "Nor mortals nearer may approach the gods."—Sir Robert Ball in Good Words.

British Army Pensions.

The ordinary pension to the widow of a lieutenant in the army is £40, and £10 for each child. A captain's widow has £50, and £12 for each child; a lieutenant colonel's widow, £90, and £16 for each child; a general's widow, £120, and £20 for each child. If death is directly traced to fatigue, privation or exposure, the pensions are increased by half as much again; if the officer is killed in action, or dies of wounds within 12 months of the battle, the pensions are doubled. The ordinary pensions are not granted if the officer was 25 years older than his wife.—London Echo.

Mileage Tickets Issued by the Pennsylvania Lines.

Persons who travel will find mileage tickets issued by the Pennsylvania lines west of Pittsburgh great conveniences, as well as money savers. Principal cities and towns in western Pennsylvania, Ohio, Indiana and Illinois are reached by these lines, which also extend to Pittsburgh, Erie, Ashtabula, Cleveland, Toledo, Ft. Wayne, Chicago, Indianapolis, St. Louis, Louisville, Cincinnati, Columbus, Wheeling and other important places. Over one-half the counties in Ohio are traversed by the Pennsylvania lines, the county seats of nearly all of them being located thereon. They also traverse forty counties of Indiana, touching at county seats. Holders of mileage tickets over the Pennsylvania lines can conveniently reach any leading city or town between Pittsburgh on the east, the Mississippi river on the west, the Great Lakes on the north, and the Ohio river on the south, these tickets being available over the several trunk lines of the Fort Wayne and Pan Handle routes, as well as over the numerous branches. The cost of a 1,000-mile ticket is \$20, a rate of two cents per mile, making the saving on a 100-mile ride \$1, with proportionate larger amounts saved on longer distances. This convenient money saver may be obtained at ticket offices of the Pennsylvania lines. The person to see at East Liverpool for information about it is Adam Hill.

Save You Money.

We feel kind of lonesome since Christmas. We had gotten used to the scramble and hustle of the holiday times, and the after-quiet makes us feel as if we had been dumped in the middle of a prairie. Rent and a hundred other expenses go on just as before, and as we can't make money anyway, we might as well lose it with a crowd as in solitude. So here goes prices to make things hum at our store in the Diamond. Come in and look through our superb stock of Overcoats, pick out one to suit you, and deduct one-fourth off the price. For example, if a coat is marked \$16 take it along at \$12; or if marked at \$8 take it along at \$6. In our suit and pants department we will make you reductions that will open your eyes. Come at once as our stock must be reduced.

BIG DAMAGES ASKED

An East Rochester Physician
Was Defamed.

HIS PRACTICE ALMOST RUINED

He Thinks It Was Worth \$10,000 to Him
and Wants the Court to Collect It—The
Second Suit From a Conversation—Lis-
bon News.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—Patrick McDon-
ald, a farmer residing at the village of
East Rochester in the western part of
the county, was today made defend-
ant in a suit for damages filed by Doc-
tor M. S. Derringer for \$10,000.
The suit grew out of a conversation,
according to the petition, in which
McDonald made the statement that
Derringer had been guilty of adultery.
The correspondent he said was Ida M.
Fox, a young married woman of that
place, and her husband was about to
make a fuss over the matter. Doctor
Derringer claims the statement was
made to injure him, and has answered
its purpose. He thinks his practice
has been woefully hurt and that his
reputation has been seriously dam-
aged. That conversation has been
the means of producing two damage
suits the other having been filed last
October by Mrs. Fox who wants \$5,000
from McDonald.

SENTENCES IN PROBATE.

Two Old Liquor Charges Were Dis-
posed Of.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—Judge Young dis-
posed of a few cases today and
wiped them off his docket. Leroy
Rinehart, of East Liverpool, got
\$25 and costs for breaking the
liquor law, and the judge tacked on
five days in the county jail so he would
not forget it. Ralph Vogan, a Lisbon
saloonist, was under the same charge
and got the same sentence.

Judge Young also authorized a set-
tlement between the Mutual Masonic
Insurance association and H. A. Cam-
eron, an heir of C. B. Camenson, who
committed suicide in a Cleveland hotel
last August. The claim was on a
policy for \$3,000, and was settled by the
company paying \$1,200.

KILLING OFF DOGS.

They Will No Longer Menace Jordantville
Health.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—The case of small-
pox in Jordantville is closely guarded
and there is no danger of the disease
spreading. There has been a great
slaughter of dogs, and few, if any, are
left. The Lewis family claim that
their daughter is not ill with small-
pox, but the health board have not re-
laxed their vigilance. As soon as the
patient can be moved, she now being
very ill, the family will be taken out
of the precincts of the village.

THE DELINQUENT SALE.

Liverpool Buyers Were There to
Buy.

Special to the NEWS REVIEW.
LISBON, Jan. 21.—A large amount of
property was today sold at the treas-
urer's office to satisfy taxes that have
become delinquent. The total amount
of Liverpool property sold was \$1,881.57
and the principal buyers were Colonel
Hill, A. R. Mackall and J. J. Purinton.
They got some bargains for the prop-
erty did not bring high prices. Land
in other parts of the county brought
no better returns.

Some of the Sick.

Mrs. Anne Colclough, an old lady
residing on Thompson hill and well
known to many people in the city, is
suffering from a complication of dis-
eases and the infirmities of old age,
and is very low.

D. H. Yant is home from Fairview
where he was called to see his father
who is still very low from heart trou-
ble.

Robert Logan is recovering from
the attack of typhoid fever which it
was feared would cost him his life.

No Cover For the Wagon.

A little group of men were talking
about the movement, now on in some
cities, for the covering of patrol
wagons, when one said:

"One of the strong features of the
law is the fear of it. Take that away
and the law loses much of its force. If
you would put a cover on the patrol,
more than one fellow who would feel
keenly the disgrace of a ride through
the streets would not fear arrest,"
and others assented.

Pulled Off the Fight.

A cock fight was pulled off in West
End last evening after a great deal of
difficulty. The owners of the chickens
are boys and the father of one found
that the match had been arranged.
He followed them and drove them from
one place, but they finally secured a
spot where the battle could be fought
without outside interference.

More Workers.

So numerous have been the addi-
tions to the number of Italian laborers
employed on the Cunningham
farm in getting out stone for the

new bridge that Contractor Shrader
has a small army there at present,
and the work is being pushed with
vigor. Parties interested in the
bridge were in town today on business
connected with the enterprise.

ing the entire week, and will doubt-
less play to good houses. The play
tonight is "A Fireman's Ward."

Throat Trouble Caused Death.

Marie, the 10-months-old child of
Mr. and Mrs. Laurence Reed, of Fifth
street, died this morning after a struggle
with throat trouble. Interment
will be made tomorrow afternoon at 2
o'clock in Riverview cemetery. The be-
reaved parents have the sympathy of a
large circle of friends.

by their action, but by giving tone to
stomach and bowels greatly invigorate
the system. Regular size 25 cents per
box. Sold by the W. & W. pharmacy. 4

Another Candidate for Solicitor.

Walter B. Hill has announced him-
self as a candidate for city solicitor,
and has already started his canvass.
Mr. Hill is well known as an attorney,
and will make a vigorous fight for the
place.

At an Institute.

Squire Rose has gone to Fairview,
where he will remain several days at-
tending the farmers' institute of Han-
cock county. The squire counts him-
self one of them now that he owns a
farm.

Lost Her Way.

A little girl lost her way on Wash-
ington street this morning, and was
crying pitifully for her mother when
a friend of the family found her and
took her home. She resides in Brad-
shaw addition.

There is good reason for the popu-
larity of Chamberlain's Cough remedy.
Davis & Buzard, of West Monterey,
Clarion company, Pa., says: "It has
cured people that our physicians could
do nothing for. We persuaded them to
try a bottle of Chamberlain's
Cough remedy and they now recom-
mend it with the rest of us." Twenty-
five and 50 cent bottles for sale by A.
H. Bulger, druggist.

A Short Session.

The board of education met last eve-
ning, passed upon a few bills, and
then went home. There was little
business to look after, and the board
had no desire to stretch out the meet-
ing.

Carlton Cornwell, foreman of the
Gazette, Middletown, N. J., believes
that Chamberlain's Cough remedy
should be in every home. He used it
for a cold and it effected a speedy cure.
He says: "It is indeed a grand remedy.
I can recommend to all. I have also
seen it used for whooping cough, with
the best results." Twenty-five and 50
cent bottles for sale by A. H. Bulger,
druggist.

Clay Machinery.

Several large clay presses were

A Startling Admission.

In New York City, for five con-
secutive years, the proportion
of Deaths from Consumption
has been three in every
Twenty Persons.

Epidemics of Cholera, Yellow Fever and
other diseases of similar character, so ter-
rible in their results, occasion wide spread
alarm and receive the most careful consid-
eration for their prevention and cure, while
consumption receives scarcely a thought,
yet the number of their victims sinks into
insignificance when compared with those of
consumption. Comparatively few people
know what to do for their loved ones when
they see them gradually lose strength, lose
color, manifest feeble vitality and emacia-
tion, or develop a cough, with difficult
breathing, or hemorrhage. Cod liver oil
was for a long time given in all such cases,
but the poor success attending its use
coupled with its nauseating taste has led
many practitioners, as well as the public at
large, to place their main reliance in Dr.
Pierce's Golden Medical Discovery. It de-
serves early attention and will prove effect-
ual in all cases of consumption in a large per-
centage of cases, and we believe that fully 95
per cent of all cases of consumption can, if taken
in the early stages of the disease, be cured
with the "Discovery." Dr. Pierce does not
ask people to believe until they have in-
vestigated for themselves. A pamphlet has
been published having the names, addresses
and photographs of a large number of those
cured of consumption, bronchitis, lingering
coughs, asthma, chronic nasal catarrh and
kindred maladies which will be mailed free
to those sending for it with their name and
address upon a postal card, or you can have
a medical treatise, in book form of 160
pages, mailed to you, on receipt of address
and six cents in stamps. You can then
write those cured and learn their experi-
ences.

ARE WE CIVILIZED?

One Who Analyzes Fashions Says We Are
Still Half Savage.

The prevailing motive not to appear
singular accounts for the continuance
of certain fashions, many being the re-
sults of superstition, religious observ-
ances and the desire to be "up to date."
We are acquainted with what facility
hair may be fashioned into various fan-
tastic shapes for personal adornment, and
when a part through the middle is de-
creed it is worn without regard to con-
tour, and whether it may add to or de-
tract from one's intellectual appearance
no thought is given.

If fashion says crimp, we crimp; if
curl and wave, we obey. And the cus-
tom of keeping the head closely shaved
prevails, as among the Fijian women,
while the men cultivate long hair, thus
reversing the conditions met with
among highly civilized nations.

The lips, ears and nose offer a variety
of possible alterations and are a means
of ornamental display, and, says Cap-
tain Cook, over a hundred years ago, in
describing the naked savages on the east
coast of Australia, their principal form
of ornamentation was a bone, which
they thrust through the cartilage which
divides the nostrils from each other. The
lip ornaments by the Bolondo Indians
and the Tinkit Bella are dis-
gusting in the extreme, and in the heart
of Africa among the Bongo women a
clasp or clasp is worn at the corners of
the mouth, as if they wanted to contract
the orifice and literally put a curb on
its possibilities.

The teeth cannot escape, and the Ma-
lays view in disgust the natural tint
and stain theirs a jet black.

One views in horror the Chinese meth-
od of foot binding, but which is much
mitigated when considering by degrees
the fashionable toe used in the last cen-
tury.

Thus we can see that fashion's fetters
torture and harass equally civilized men
and savage vanity. Are we not the same
in kind, but differing only in degree
from the savage?—New York Adver-
tiser.

Edmund Halley.

Probably the greatest service which
Halley ever rendered to human knowl-
edge was the share which he took in
bringing Newton's "Principia" before
the world. In fact, as Dr. Glaisher, writ-
ing in 1888, has truly remarked, "but
for Halley the 'Principia' would not
have existed."

Halley had the genius to perceive the
tremendous importance of Newton's re-
searches, and he ceased not to urge upon
the somewhat reclusive man of science the
necessity for giving his discoveries pub-
lication. Having been authorized by the
Royal society to undertake the printing
of the book at his own expense, Halley
spared no pains in pushing forward the
publication of his illustrious friend's
great work, so much so that in the same
year he was in a position to present a
complete copy to King James II, with a
proper discourse of his own. Halley also
wrote a set of Latin hexameters, in
praise of Newton's genius, which he
printed at the beginning of the work.
The last line of this specimen of Hal-
ley's poetic muse may be thus rendered,
"Nor mortals nearer may approach the
gods"—Sir Robert Ball in Good Words.

British Army Pensions.

The ordinary pension to the widow of
a lieutenant in the army is £40, and
£10 for each child. A captain's widow
has £50, and £12 for each child; a lieuten-
ant colonel's widow, £90, and £16
for each child; a general's widow, £120,
and £20 for each child. If death is di-
rectly traced to fatigue, privation or ex-
posure, the pensions are increased by
half as much again; if the officer is
killed in action, or dies of wounds
within 12 months of the battle, the pen-
sions are doubled. The ordinary pen-
sions are not granted if the officer was
25 years older than his wife.—London

Mileage Tickets Issued by the Pennsylv-
ania Lines.

Persons who travel will find mileage
tickets issued by the Pennsylvania
lines west of Pittsburg great conve-
niences, as well as money savers. Prin-
cipal cities and towns in western
Pennsylvania, Ohio, Indiana and Illi-
nois are reached by these lines, which
also extend to Pittsburg, Erie, Ashta-
bula, Cleveland, Toledo, Ft. Wayne,
Chicago, Indianapolis, St. Louis,
Louisville, Cincinnati, Columbus,
Wheeling and other important places.
Over one-half the counties in Ohio
are traversed by the Pennsylvania
lines, the county seats of nearly all
of them being located thereon. They
also traverse forty counties of In-
diana, touching at county seats.
Holders of mileage tickets over the
Pennsylvania lines can conveniently
reach any leading city or town be-
tween Pittsburg on the east, the Mis-
sissippi river on the west, the Great
Lakes on the north, and the Ohio
river on the south, these tickets being
available over the several trunk lines
of the Fort Wayne and Pan Handle
routes, as well as over the numerous
branches. The cost of a 1,000-mile
ticket is \$20, a rate of two cents per
mile, making the saving on a 100-mile
ride \$1, with proportionate larger
amounts saved on longer distances.
This convenient money saver may be
obtained at ticket offices of the Penn-
sylvania lines. The person to see at
East Liverpool for information about
it is Adam Hill.

EAST LIVERPOOL, O., WEDNESDAY, JAN. 22.

For President,
WILLIAM McKINLEY,
OF OHIO.

A RIPPER bill for the benefit of a
few Toledo politicians has found its
way into the legislature, and the
Blade is mad clear through.

If Britain buys Cuba there will
probably be more fun for the red lion
of England than it has experienced
since the early days of the century.

THE bill which seeks to place county
officials on salary is not causing much
stir among members of the legisla-
ture. Although a good thing, it seems
destined to die before it becomes a
law.

HERE'S hoping the river and harbor
commission will consider well the
claims of the Ohio. A few million
dollars spent in improving the stream
would make the valley the Mecca of
manufacturers.

AMBASSADOR BAYARD says he was
in a playful mood when he maligned
America for the benefit of an English
audience. It is now the duty of con-
gress to teach him that he does not
draw a salary for that purpose.

ONE of the leading questions to be
considered by the National association
of Manufacturers is the creation of
another cabinet position, the duties of
which will bring the secretary in close
connection with manufacturers. It
would be a good thing.

BIENNIAL ELECTIONS.

It is not at all likely that the legis-
lature will follow the inclination of
Governor Bushnell and pass a law
providing for biennial elections.
There is not enough in the subject to
warrant attention. The governor
meant well; of that there is no ques-
tion. He is a business man with busi-
ness ways. To him it seems a useless
expenditure of money to have the peo-
ple go to the polls every year, when
the officers could all be elected at one
time, and on the surface the governor
would seem to be in the right. There
is no doubt elections cost money, and
one would not cost as much as two.
But when it is remembered that even
in municipal elections the plan would
not work, it can be judged how useless
it would be for the state. Suppose
every councilman of this city was de-
prived of office on the same day and a
new council would take its place, how
well would the public business be
transacted? There would be dire
confusion and the result would prob-
ably be more expense than the
amount saved by omitting an election
day. The political campaign and sub-
sequent election is a institution
which Ohio can not get along with-
out. The people have been educated
to it, and are better for it.

Carlton Cornwell, foreman of the
Gazette, Middletown, N. J., believes
that Chamberlain's Cough remedy
should be in every home. He used it
for a cold and it effected a speedy cure.
He says: "It is indeed a grand remedy.
I can recommend to all. I have also
seen it used for whooping cough, with
the best results." Twenty-five and 50
cent bottles for sale by A. H. Bulger,
druggist.

TOO MUCH JINGOISM.

The Davis Resolution Likely
to Be Sidetracked.

HOUSE MEMBERS DON'T LIKE IT.

A Belief That It Unnecessarily Increases
the Tension Between Great Britain and
This Country—Likely to Be Sidetracked
by the House Committee.

WASHINGTON, Jan. 22.—The predic-
tion is freely made by members of the
house committee on foreign affairs that
if the proposed reaffirmation of the Mon-
roe doctrine is adopted by the senate
and sent over to the house for action it
will be allowed to rest quietly in the
committee files. A canvass of more
than a majority of both Republicans
and Democratic members of the com-
mittee failed to discover any member
who endorses it.

Courtesy to their colleagues of the
senate impels the members of the com-
mittee in the other house to refrain from
putting themselves on record in inter-
views as opposed to the resolution, but
in conversation they do not hesitate to
criticize the verbiage of it and to depre-
ciate the policy which brings it
forward at this particular time. One of
the foremost authorities on diplomatic
matters in the house said that he deemed
it very poor diplomacy to take any steps
tending to increase the tension between
this government and Great Britain in
what practically amounted to a crisis.
The committee members think it will
be better policy to sidetrack the resolu-
tion without any demonstration of dis-
approval than to make an adverse report
upon it to the house. They say that it
will be impolitic to evoke any appear-
ance of discord in congress upon a ques-
tion of foreign policy, and that if the
concurrence of the house is not to be se-
cured for the resolution, and they be-
lieve that it will not be, the friction over
it will be minimized.

TO INVESTIGATE BOWLER.

His Unusual Decisions Likely to Be
Looked Into by Congress.

WASHINGTON, Jan. 22.—The house
committee on judiciary has taken steps
to investigate the action of Comptroller
Bowler in withholding the sugar bounty
appropriation. A resolution advocated
reads as follows:

"Resolved, That the committee on
judiciary be and is hereby authorized
and directed to inquire as to the condi-
tion of the law on the subject of the
right of the executive officers of the
government in the several departments
thereof, to refuse to enforce, execute or
comply with the provisions of any act
of the congress of the United States on
the ground of its alleged unconstitution-
ality or for other reasons and to re-
port to the house by bill or otherwise."
If this resolution be adopted by the
house the committee will investigate the
whole matter. It can recommend a statu-
te to prevent any future action based
on the Bowler precedent, and can pro-
vide for the payment of the withheld
bounties. Whether any action would be
possible was a matter of discussion,
and it was predicted by members of the
committee that congress would adopt a
resolution declaring that Comptroller
Bowler had exceeded his authority.

\$18,000,000 IN SILVER.

The Mints Will Commence to Coin Them
Next Month.

WASHINGTON, Jan. 22.—About Feb. 1
the treasury department will resume
the coinage of silver dollars and con-
tinue until about \$18,000,000 have been
coined. When the present administra-
tion came into power there were in the
treasury about \$29,000,000 in silver dol-
lars coined from bullion under the act
of 1890 and available for the redemp-
tion of treasury notes issued in pay-
ment of the bullion purchased.

Since August, 1893, about \$18,000,000
of these notes have been redeemed in
silver dollars and cancelled. The sec-
retary of the treasury has now decided to
coin from the bullion on hand and
purchase, under the act of 1890, about
\$18,000,000, which will restore the
amount of dollars in the treasury to
what it was on March 4, 1893.

SILVER MEN TOGETHER.

A Meeting to Arrange a Campaign Pro-
gram Being Held.

WASHINGTON, Jan. 22.—A meeting of
prominent silver men from all parts of
the country began today.

A preliminary conference of the mem-
bers of the executive committee of the
Bi-Metallist League was held, at which

steps were taken looking to the consoli-
dation of the several silver organizations
into one body, with headquarters at
Washington, Chicago, San Francisco
and at some point in the south.

One purpose of today's meeting is to
fix upon a time and place for holding a
national silver convention at which a
national silver ticket shall be nomi-
nated. This action, however, is contin-
gent upon the failure of both of the old
parties to recognize silver by nominat-
ing candidates unequivocally pledged to
its rehabilitation on a basis of 16 to 1.
It is not necessary, it is said, that adher-
ents of the proposed new party already
should have severed all connection with
the old parties, but it is essential that
they be willing to do so should the old
parties fail to nominate candidates
pledged to the silver cause.

LOYAL TO THE QUEEN.

A Canadian Statesman Says the Cana-
dians Are Ready in Case of War.

HALIFAX, N. S., Jan. 22.—A dispatch
from North Sydney, Cape Breton, says
that Attorney General Lingley of this
province has addressed an enthusiastic
Liberal meeting there, in which he, ad-
verting to the controversy between
Great Britain and the United States
over the Venezuelan boundary ques-
tion, said:

"In the event of armed strife, the
Dominion of Canada would be fore-
most in the field, as she was also fore-
most in loyalty of any of the British
colonies."

The utterance was loudly applauded.

Bright Outlook For a Cable.

WASHINGTON, Jan. 22.—From the ac-
tion of the house committee on com-
merce there seems to be little doubt that
a bill authorizing the Pacific Cable com-
pany to lay a cable from the Pacific
coast to the Hawaiian Islands and Japan
will be favorably reported within a short
time. The committee directed a sub-
committee to prepare a bill embracing
certain changes considered desirable
from the bill outlined by the company.

Sherman's Proposed Amendment.

WASHINGTON, Jan. 22.—Senator Sher-
man has given notice of amendments
to Senator Pugh's concurrent resolu-
tion providing for the redemption of
United States bonds in silver coin.
They provide for the recognition of the
law declaring the policy of maintaining
the parity of gold and silver.

Four German Officers Wounded.

BERLIN, Jan. 22.—The North German
Gazette has a dispatch from the Cam-
eroons saying that several days' fighting
has occurred near the station of Jaude
with the insurgent natives. Four Ger-
man officers were wounded and seven
native troopers killed.

The Kaiser's Dispatch Condemned.

CAPE TOWN, Jan. 22.—At a meeting
of the German residents of Salisbury,
capital of Mashonaland, a resolution
was passed condemning Emperor Wil-
liam's dispatch to President Kruger as
an act of interference with South
African affairs.

Two Wounded by Robbers.

FLANDEREAU, S. D., Jan. 22.—Four
masked men broke into the house of
Andrew Erickson, about 14 miles south-
east of Flanderau, and demanded his
money. Being told he had none, they
badly wounded him and his son.

A Victim of a Runaway.

general, U. S. A., retired, has died here,
aged 80.

GOMEZ ADMIRES PATRIOTS.

He Refuses to Destroy the Estate of an
Aged Spanish Patriot.

HAVANA, Jan. 22.—An incident of
Maximo Gomez's countermarch through
Havana Province is reported. The other
day he was camped with 8,000 men at
the plantation of Amalia. While there
he sent for the administrator of Portu-
galite and told him that he came to de-
stroy Portugalite with dynamite, in view
of its disobedience of his orders against
grinding sugar cane.

But, he added, if the garrison should
retire from the plantation he would
agree not to dynamite it. This was
agreed to and the garrison retired, but
only as far as San Jose. Portugalite is
a fine estate, and Gomez has given a
written order not to burn it, out of re-
spect to the administrator and owner,
the prominent and aged Spanish patriot,
Manuel Calve.

ENGLISH FLYING SQUADRON.

No Menace to Any Country Intended by
Its Mobilization.

LONDON, Jan. 22.—Rt. Hon. C. J.
Goschen, first lord of the admiralty,
addressing the Conservatives at East
Grinstead, complimented the admiralty
staff upon their splendid organization.
He declared that no menace to any
country was intended by the formation
of the flying squadron.

"It will be ready," he continued, "for
any emergency, and will remain under
the orders of the admiralty rather than
of the foreign office. The disposition of
it will be guided by naval, not political,
considerations."

Three Firemen Crushed.

ST. LOUIS, Jan. 22.—The four-story
building at 415 Broadway, occupied by
Aloe & Co., opticians and dealers in
surgical and electrical instruments, has
been burned. Loss, \$250,000. Three
firemen who were working in the base-
ment were crushed beneath falling
floors, and are thought to be fatally in-
jured, if not dead.

Unimportant Senate Session.

WASHINGTON, Jan. 22.—The senate
put aside finance and foreign affairs
and gave the day to work on comparatively
minor bills on the calendar. About 70
bills were passed, clearing the calendar
of much accumulation and leaving only
important measures pending. The Cu-
ban question received brief and incon-
clusive attention.

Archbishop Kain's Pallium.

ST. LOUIS, Jan. 22.—A cable from
Rome to Archbishop Kain announces
that the pallium, the insignia of his
archiepiscopal rank, is now on its way to
St. Louis. The papal messenger, Bishop
Stanley of South Dakota, and his
precious burden will arrive here next
Tuesday.

Get a One-Cent Rate.

MINNEAPOLIS, Jan. 22.—The local
Knights of Pythias have played a trump
card in their game for cent-a-mile rate
for the national encampment next sum-
mer by the announcement that the Soo
line and its connections had agreed to
grant the much-wanted rate.

IT REFUSED TO FLY

But Was a Pretty Model of a
Flying Machine.

DAYS OF LABOR WERE LOST

Hope of Months Cast Down in a Minute.
The Inventor Thought He Had Solved
the Problem, but Like Others Who Have
Gone Before, He Hadn't.

There is a sad and disappointed man in the city today, and he has been in that condition for well nigh a week.

A few months ago he conceived the idea of building a flying machine. He had never seen one of these things nor did he understand the principle upon which so many men have worked and come to grief. The plan came to him one day when he was at work, and he lost no time in carrying it out. He happens to be a machinist of no mean ability, and he was not long in securing a few light rods of steel, some screws and the necessary tools. He set to work, and every hour of his spare time was spent on the machine. What he wanted was a series of levers so arranged and compounded that a slight force exerted by the operator of the boat would produce a movement of the sails, which were to be made in the form of wings. The principle he had in mind was to make the car the body of the bird, the sails its wings, and the human operator the instinct to guide and move the machine. After several ineffectual attempts he succeeded in getting the levers to work satisfactorily, and then he prepared the car. It was only a model, but if he could establish the motion in this, he argued, he could devote it to some practical use. At length all was completed, the silk sails were in place, and every bit of metal had been polished until the machine looked the perfect thing the inventor had hoped. It was held on his hand in a room, the levers were set in motion and the wings began to move. There was hope in his breast just then, but it did not last long. The sails flapped as well as he could wish, but there was no forward motion. The machine stayed just where it was. The inventor imagined that something was out of order, and the craft was overhauled and tested again. The second trial, however, was not more successful than the first, but there were numerous others with the same result. The inventor, however, is not discouraged, but he refuses to have his name made public until he has a machine that will go. He declares that he will not ruin himself in his experiments, but will devote only such time to the plan as he could not otherwise use.

There will be no hospital meeting at the Young Men's Christian association, as was announced in this paper last evening, but it is not the fault of the ladies who are deeply interested in the matter. Some of the leaders of the movement could not be present, owing to illness, and the meeting was postponed. The movement is by no means dead, but on the other hand is as lively as ever, and will doubtless result in success, as the ladies are in earnest. The meeting will be held in the near future.

ANOTHER WELCOME.

This Time It Was the Grand Army Honoring Governor McKinley.

Hon. A. H. McCoy went to Canton yesterday afternoon to attend the welcome of the Grand Army to Governor McKinley. A reception was held at one of the leading hotels in the afternoon and a big campfire at night. Governor McKinley spoke in a happy strain and did not touch upon politics, and Mr. McCoy was also among the speakers. Many state officers of the Grand Army were present, and the occasion was one of great rejoicing.

BROKE A RIB.

W. A. Finley Sustained a Peculiar Accident.

W. A. Finley, a well known resident of East End, is suffering from a broken rib which he sustained in a peculiar accident. He was shaving down the handle of a wheelbarrow with a draw knife when the barrow slipped from the fastening which held it in place and the handle came violently against Finley's side. He felt a sharp pain, but did not know he was badly hurt until he consulted a physician and learned that a bad fracture of a rib had been sustained.

IN A HOSPITAL.

Harry MacKenzie Was Not Lost in Pittsburgh.

For several days there has been a story floating around the city that Harry MacKenzie, the photographer, had left town and would not return. There was no question about him being away, but last night he came back. He went to Pittsburgh over a week ago on business, and while there was seized with an attack of stomach trouble. He was very ill, and went at once to Mercy hospital, where he was cared for until in a fit condition to travel.

THE WIRE WAS DOWN.

The Old Trolley Still at Its Tricks on the Wellsville Road.

The trolley wire of the street car line was down again last night, the first time for several weeks, and there was no end of annoyance on the Wellsville road. The wire did not break but became detached from the poles near the camp ground, and passengers were transferred. The repair crew were ordered out, and soon had the wire in place again, but not before passengers knew there was deep, deep mud on the Wellsville road.

SCARLATINA IN CHESTER.

Not Scarlet Fever, as Was Reported Today.

There was a rumor on the street today that scarlet fever had broken out in Chester and several cases had already developed. Investigation showed that it was the wildest kind of a story and probably came from the fact that a member of the family of Columbus Cunningham has the scarlatina. The child is very ill, but its death is not expected.

BURNED BY GREASE.

Miss Annie Kerr Has a Sore Arm and Face.

When Miss Annie Kerr was preparing breakfast at her home on Ridgeway avenue she had occasion to put grease into a skillet. In some manner it took fire, and Miss Kerr, fearing the flames would spread, made an ineffectual attempt to blow out the flame. When her face was close to the skillet the grease exploded and the flame enveloped her head and arm. With a shriek she ran from the room, and it was discovered that her face was badly burned and one arm was blistered. Luckily the flames did not ignite her clothing.

HOUSE BOAT LICENSES

An Exceptionally Good Bill Introduced at Columbus.

THE SHANTIES UNDER THE LAW

Each One is to Have a License From Some County of the State, and Must Pay for It—Kentucky Has a Similar Measure in the Hopper.

The shanty boat must get off the rivers of Ohio or take out a license for existence, if a bill now before the legislature becomes a law.

Not long ago a Kentucky legislator presented a measure governing life on the navigable waters of the state. Some member of the Ohio legislature has thought a good thing and dropped a similar bill into the hopper at Columbus. It requires that it shall be unlawful for any person or persons to live in or to occupy any boat or watercraft as a place of residence or abode on any of the navigable waters of the state, or their tributaries, until a license has been granted to the person or persons living in such craft by the probate judge of the county in which said boat lies or plies. The applicant for license must show good character, set forth under oath his legal residence, the name of the boat or craft on which he resides, the business, trade, or traffic to be engaged in, and, if the head of a family, the names and ages of the members of the family. The name of the boat is to be painted on both sides and the words: "Licensed in — county, Ohio," are also to be painted on both sides. A license fee of \$10 and the probate fee of \$2 must be paid before a license, good for one year, is issued. The bill, if passed, will have a good effect upon some people who live in shanty boats on the rivers, particularly the Ohio, where no end of disreputable characters have found refuge. With every boat located by a license number it will not be difficult to keep track of those with shady reputations.

WINDING UP BUSINESS.

Old Cases Settled in Common Pleas Court.

LISBON, Jan. 22.—The last echoes of this term of common pleas court were heard today. A. G. Smith got a judgment against the Ohio and Pennsylvania Coal company for \$400, and the divorce proceedings of T. J. Heckathorn against G. W. Heckathorn, on the grounds of habitual drunkenness, were dismissed. In the case of John E. Goddard against John S. Dixon, the perpetual injunction was modified and the case will be heard in court on its merits. J. P. Heckathorn was given the title to a lot in Jethro.

THEY HAVE A CANDIDATE.

Third Warders Claim to Have a Good Man in Sight.

Certain leading men of politics are talking of a candidate for council from the Third ward, and have a good man in prospect. His name is not given out, but he is said to be one of the leading residents of the ward. It is whispered around that the Second will come smiling to the front with a good selection, and the First will have more candidates than any other ward in the city.

MAY BE A WEDDING.

Only One Way for a Young Printer to Escape.

Edward Frederick was arrested the other evening by Constable Lyon on a charge made out by Miss Lena Roberts. He gave bond for his appearance in court tomorrow, but there is a rumor that the case will be settled by a wedding ceremony without the intervention of the law. The case has been kept very quiet, and only came to the surface today.

NOT A CANDIDATE.

John Anderson Don't Want to be City Clerk.

John A. Anderson, the well known clothing salesman, has decided that he will not this year be a candidate for city clerk. Some of his friends have been urging him to make the race with Jack Harris and J. N. Harley, but he believes the field is full enough to make a good race, and has decided to stay on the outside.

WHERE THEY BELONG.

"Are there any more candidates for your office in the air?" was asked an aspiring politician today, the questioner meaning if there were any more mentioned.

"I don't know," came the answer, "but I guess that's where they belong. There's no room for them on the ground."

SELLING THEIR WHEELS.

Several bicycle agents were in town yesterday, and made arrangements with their agents for the coming season. There is no reduction in price, and one of the gentlemen remarked in conversation with several wheelmen that the manufacturers of bicycles would enter a compact before they would cut the price.

STOLE HIS COAT.

Robert Moore, the Broadway coal dealer, was the victim of a sneak thief last night. He had occasion to leave his office for a few minutes, and only going a short distance he left his overcoat in the room and the door open. When he returned the coat was gone, some thief having quietly slipped away with it. As usual in these cases there is no clue. There is a gang of sneak thieves in the lower part of the city, and during the past few weeks many articles have been stolen. They are an experienced crowd and never leave a trace.

AMUSED A CROWD.

A leading member of the Young Men's Christian association created amusement for his friends last night by walking along Market street with a placard on his back bearing an inscription. He did not know it was there, but when he discovered its presence wondered what had become of the small boy who had fastened the pin.

FEEDING THE POOR.

The township trustees today sent away their monthly statement, and were surprised when they summed up the business done to see that it was greater than any made out since the strike. There were a great many applicants who got nothing because of certain irregularities, which the trustees could not overlook, but in spite of the manner in which the number was kept down the business done was far too much for comfort. The trustees have experienced difficulty in accounting for the rush. The month cost \$422.41. There are 60 families making a total of 250 person on the list.

has many friends, and were the names made public it would create a great sensation in the city. The causes leading to the action are not known for it has been generally understood that they were a happy couple.

NOTHING TO SAY.

Captain Freese Continues to Keep His Peace.

Captain Freese came in from Canton today, and will remain here several days looking after the business of the Canton & East Liverpool. The captain has nothing to say for public or private information, and with that firm yet kindly manner told the reporters that there is nothing new and it will not be long until they can know all there is to know about the railroad. By some who seem to know something of the project it is said there will be developments in the near future.

MANY WIDOWS THERE.

One Square in the City Has no Less Than Twenty.

There is a square in the lower part of the city which is noted among people who know of the matter for the number of widows it contains. Within the boundaries as they are laid out there are no less than 20 widows, all hale and hearty and apparently getting along as well as if their other halves had not passed the dark river. The widows make up about one-half the female population of the square, and the proportion is perhaps greater than in any square of the city.

A RAILROAD STORY.

The Canton and East Liverpool Depot Has Been Located.

It is announced that the last kiln has been fired at the Manley brick yard on Sophia street, and the land will be used for that purpose no more. This has probably given rise to the story that the new railroad depot will be located on the ground. The tale has been extensively circulated in the upper part of the city, and some people are found who believe every word of it. However, they are unable to explain how the road will get to Pittsburgh on that route.

BUILDING NESTS.

The Sparrows Never Sleep Out in the West End.

The accident at the light plant has caused inconvenience for the public, but is a boon for the enterprising sparrows residing in West End. The hoods of arc lights are favorite places for their nests, but when the trimmer comes every day he cleans out the straw and the sparrows are homeless. They have taken advantage of the lull and several lamps in West End show that the little birds have gone to housekeeping under the hoods.

NEW ENGINES.

The Pennsylvania Company Has Some Beauties.

The Pennsylvania has placed itself at the head of railroads so far as passenger motive power is concerned. The new class L fast passenger engines are the acme of perfection, the finest and best of any road in the country. Every part and principle of the big machines is the outcome of practical tests to determine with the most positive results its safety, efficiency and durability.

THEY HAVE A CANDIDATE.

Third Warders Claim to Have a Good Man in Sight.

Certain leading men of politics are talking of a candidate for council from the Third ward, and have a good man in prospect. His name is not given out, but he is said to be one of the leading residents of the ward. It is whispered around that the Second will come smiling to the front with a good selection, and the First will have more candidates than any other ward in the city.

MAY BE A WEDDING.

Only One Way for a Young Printer to Escape.

Edward Frederick was arrested the other evening by Constable Lyon on a charge made out by Miss Lena Roberts. He gave bond for his appearance in court tomorrow, but there is a rumor that the case will be settled by a wedding ceremony without the intervention of the law. The case has been kept very quiet, and only came to the surface today.

NOT A CANDIDATE.

John Anderson Don't Want to be City Clerk.

John A. Anderson, the well known clothing salesman, has decided that he will not this year be a candidate for city clerk. Some of his friends have been urging him to make the race with Jack Harris and J. N. Harley, but he believes the field is full enough to make a good race, and has decided to stay on the outside.

WHERE THEY BELONG.

"Are there any more candidates for your office in the air?" was asked an aspiring politician today, the questioner meaning if there were any more mentioned.

"I don't know," came the answer, "but I guess that's where they belong. There's no room for them on the ground."

KNOCKED OFF A TRUCK

Mr. Crease, of Sewickley, Has
Another Accident.

HAPPENED AT THE POWER HOUSE

He Has a Claim Against the City For a Broken Wagon Sustained Last Summer, and Now Has Another—No One Hurt.

Mr. Crease, the Sewickley man who has a claim against the city because his wagon was broken near the power house last summer, has another grievance against the town.

Last summer Mr. Crease was driving near the power house when a wheel of his wagon caught in the track, and the vehicle was damaged. A claim was made against the city and is now in the hands of Solicitor Clark. This morning Mr. Crease was driving near the same place, being seated in his buggy with his two little girls, when a street car came along. The road at that place is narrow, and he did not give way to the car. The result was more damage to the buggy, but no one was hurt. The coincidence was deeply regretted by the Sewickley man, but that did not prevent him from asserting that some one would have to pay the bill for repairing the buggy.

PASSENGER MEN.

Were Here Today Talking That St. Louis Trip.

Messrs. Sankey and McWatters, of the passenger department of the Pennsylvania company, were here today conferring with the committee of the McKinley club who have in charge the trip to St. Louis. The gentlemen could not give the club a rate because the Central Traffic association has not yet decided. They will meet, however, within two weeks, and will then be able to let all who desire to attend the convention know the cost of transportation. There is reason to believe that the East Liverpool delegation will be large. Mr. Sankey will accompany the party.

FEEDING THE POOR.

The Township Trustees Have Had Their Hands Full.

The township trustees today sent away their monthly statement, and were surprised when they summed up the business done to see that it was greater than any made out since the strike. There were a great many applicants who got nothing because of certain irregularities, which the trustees could not overlook, but in spite of the manner in which the number was kept down the business done was far too much for comfort. The trustees have experienced difficulty in accounting for the rush. The month cost \$422.41. There are 60 families making a total of 250 person on the list.

STOLE HIS COAT.

Robert Moore, the Broadway coal dealer, was the victim of a sneak thief last night. He had occasion to leave his office for a few minutes, and only going a short distance he left his overcoat in the room and the door open. When he returned the coat was gone, some thief having quietly slipped away with it. As usual in these cases there is no clue. There is a gang of sneak thieves in the lower part of the city, and during the past few weeks many articles have been stolen. They are an experienced crowd and never leave a trace.

AMUSED A CROWD.

A leading member of the Young Men's Christian association created amusement for his friends last night by walking along Market street with a placard on his back bearing an inscription. He did not know it was there, but when he discovered its presence wondered what had become of the small boy who had fastened the pin.

SELLING THEIR WHEELS.

Several bicycle agents were in town yesterday, and made arrangements with their agents for the coming season. There is no reduction in price, and one of the gentlemen remarked in conversation with several wheelmen that the manufacturers of bicycles would enter a compact before they would cut the price.

EAST LIVERPOOL, O., WEDNESDAY, JAN. 22.

For President,
WILLIAM MCKINLEY,
OF OHIO.

A RIPPER bill for the benefit of a
few Toledo politicians has found its
way into the legislature, and the
Blade is mad clear through.

If Britain buys Cuba there will
probably be more fun for the red lion
of England than it has experienced
since the early days of the century.

THE bill which seeks to place county
officials on salary is not causing much
stir among members of the legisla-
ture. Although a good thing, it seems
destined to die before it becomes a
law.

HERE'S hoping the river and harbor
commission will consider well the
claims of the Ohio. A few million
dollars spent in improving the stream
would make the valley the Mecca of
manufacturers.

AMBASSADOR BAYARD says he was
in a playful mood when he maligned
America for the benefit of an English
audience. It is now the duty of con-
gress to teach him that he does not
draw a salary for that purpose.

ONE of the leading questions to be
considered by the National association
of Manufacturers is the creation of
another cabinet position, the duties of
which will bring the secretary in close
connection with manufacturers. It
would be a good thing.

BIENNIAL ELECTIONS.

It is not at all likely that the legis-
lature will follow the inclination of
Governor Bushnell and pass a law
providing for biennial elections.
There is not enough in the subject to
warrant attention. The governor
meant well; of that there is no ques-
tion. He is a business man with busi-
ness ways. To him it seems a useless
expenditure of money to have the peo-
ple go to the polls every year, when
the officers could all be elected at one
time, and on the surface the governor
would seem to be in the right. There
is no doubt elections cost money, and
one would not cost as much as two.
But when it is remembered that even
in municipal elections the plan would
not work, it can be judged how useless
it would be for the state. Suppose
every councilman of this city was de-
prived of office on the same day and a
new council would take its place, how
well would the public business be
transacted? There would be dire
confusion and the result would prob-
ably be more expense than the
amount saved by omitting an election
day. The political campaign and
subsequent election is a institution
which Ohio can not get along with-
out. The people have been educated
to it, and are better for it.

Carlton Cornwell, foreman of the
Gazette, Middletown, N. J., believes
that Chamberlain's Cough remedy
should be in every home. He used it
for a cold and it effected a speedy cure.
He says: "It is indeed a grand remedy.
I can recommend to all. I have also
seen it used for whooping cough, with
the best results." Twenty-five and 50
cent bottles for sale by A. H. Bulger,
druggist.

ANNOUNCEMENT.

All persons desirous of becoming
candidates for office on the
Independent Labor ticket, will
make application to C. J. Mar-
tin, secretary of executive com-
mittee, Trades and Labor coun-
cil. 348 Walnut Street.

Many stubborn and aggravating
cases of rheumatism that were be-
lieved to be incurable and accepted as
life legacies, have yielded to Cham-
berlain's Pain balm, much to the sur-
prise and gratification of the suf-
ferers. One application will relieve
the pain and suffering and its con-
tinued use assures an effectual cure.

TOO MUCH JINGOISM.

The Davis Resolution Likely
to Be Sidetracked.

HOUSE MEMBERS DON'T LIKE IT.

A Belief That It Unnecessarily Increases
the Tension Between Great Britain and
This Country—Likely to Be Sidetracked
by the House Committee.

WASHINGTON, Jan. 22.—The predic-
tion is freely made by members of the
house committee on foreign affairs that
if the proposed reaffirmation of the Mon-
roe doctrine is adopted by the senate
and sent over to the house for action it
will be allowed to rest quietly in the
committee files. A canvass of more
than a majority of both Republicans
and Democratic members of the com-
mittee failed to discover any member
who endorses it.

Courtesy to their colleagues of the
senate impels the members of the com-
mittee in the other house to refrain from
putting themselves on record in inter-
views as opposed to the resolution, but
in conversation they do not hesitate to
criticise the verbiage of it and to depre-
cate the policy which brings it
forward at this particular time. One of
the foremost authorities on diplomatic
matters in the house said that he deemed
it very poor diplomacy to take any steps
tending to increase the tension between
this government and Great Britain in
what practically amounted to a crisis.
The committee members think it will
be better policy to sidetrack the resolu-
tion without any demonstration of dis-
approval than to make an adverse report
upon it to the house. They say that it
will be impetuous to evoke any appear-
ance of discord in congress upon a ques-
tion of foreign policy, and that if the
concurrence of the house is not to be se-
cured for the resolution, and they be-
lieve that it will not be, the friction over
it will be minimized.

TO INVESTIGATE BOWLER.

His Unusual Decisions Likely to Be
Looked Into by Congress.

WASHINGTON, Jan. 22.—The house
committee on judiciary has taken steps
to investigate the action of Comptroller
Bowler in withholding the sugar bounty
appropriation. A resolution advocated
reads as follows:

"Resolved, That the committee on
judiciary be and is hereby authorized
and directed to inquire as to the condi-
tion of the law on the subject of the
right of the executive officers of the
government in the several departments
thereof, to refuse to enforce, execute or
comply with the provisions of any act
of the congress of the United States on
the ground of its alleged unconstitution-
ality or for other reasons and to re-
port to the house by bill or otherwise."
If this resolution be adopted by the
house the committee will investigate the
whole matter. It can recommend a statu-
te to prevent any future action based
on the Bowler precedent, and can pro-
vide for the payment of the withheld
bounties. Whether any action would be
possible was a matter of discussion,
and it was predicted by members of the
committee that congress would adopt a
resolution declaring that Comptroller
Bowler had exceeded his authority.

\$18,000,000 IN SILVER.

The Mints Will Commence to Coin Them
Next Month.

WASHINGTON, Jan. 22.—About Feb. 1
the treasury department will resume
the coining of silver dollars and con-
tinue until about \$18,000,000 have been
coined. When the present administra-
tion came into power there were in the
treasury about \$29,000,000 in silver dol-
lars coined from bullion under the act
of 1890 and available for the redemp-
tion of treasury notes issued in pay-
ment of the bullion purchased.
Since August, 1893, about \$18,000,000
of these notes have been redeemed in
silver dollars and cancelled. The secre-
tary of the treasury has now decided to
coin from the bullion on hand and pur-
chase, under the act of 1890, about
\$18,000,000, which will restore the amount
of dollars in the treasury to what it was on March 4, 1893.

SILVER MEN TOGETHER.

A Meeting to Arrange a Campaign Pro-
gram Being Held.

WASHINGTON, Jan. 22.—A meeting of
prominent silver men from all parts of
the country began today.

A preliminary conference of the mem-
bers of the executive committee of the
Bi-Metallic League was held, at which

steps were taken looking to the consoli-
dation of the several silver organizations
into one body, with headquarters at
Washington, Chicago, San Francisco
and at some point in the south.

One purpose of today's meeting is to
fix upon a time and place for holding a
national silver convention at which a
national silver ticket shall be nomi-
nated. This action, however, is contin-
gent upon the failure of both of the old
parties to recognize silver by nominat-
ing candidates unequivocally pledged to
its rehabilitation on a basis of 16 to 1.
It is not necessary, it is said, that adhe-
rents of the proposed new party already
should have severed all connection with
the old parties, but it is essential that
they be willing to do so should the old
parties fail to nominate candidates
pledged to the silver cause.

LOYAL TO THE QUEEN.

A Canadian Statesman Says the Cana-
dians Are Ready to Case of War.

HALIFAX, N. S., Jan. 22.—A dispatch
from North Sydney, Cape Breton, says
that Attorney General Lingley of this
province has addressed an enthusiastic
Liberal meeting there, in which he, ad-
verting to the controversy between
Great Britain and the United States
over the Venezuelan boundary ques-
tion, said:
"In the event of armed strife, the
Dominion of Canada would be fore-
most in the field, as she was also fore-
most in loyalty of any of the British
colonies."
The utterance was loudly applauded.

Bright Outlook For a Cable.

WASHINGTON, Jan. 22.—From the ac-
tion of the house committee on com-
merce there seems to be little doubt that
a bill authorizing the Pacific Cable com-
pany to lay a cable from the Pacific
coast to the Hawaiian Islands and Japan
will be favorably reported within a short
time. The committee directed a sub-
committee to prepare a bill embracing
certain changes considered desirable
from the bill outlined by the company.

Sherman's Proposed Amendment.

WASHINGTON, Jan. 22.—Senator Sher-
man has given notice of amendments
to Senator Pugh's concurrent resolu-
tion providing for the redemption of
United States bonds in silver coin.
They provide for the recognition of the
law declaring the policy of maintaining
the parity of gold and silver.

Four German Officers Wounded.

BERLIN, Jan. 22.—The North German
Gazette has a dispatch from the Cum-
moroons saying that several days' fighting
has occurred near the station of Jauhe
with the insurgent natives. Four Ger-
man officers were wounded and seven
native troopers killed.

The Kaiser's Dispatch Condemned.

CAPE TOWN, Jan. 22.—At a meeting
of the German residents of Salisbury,
capital of Mashonaland, a resolution
was passed condemning Emperor Wil-
liam's dispatch to President Kruger as
an act of interference with South
African affairs.

Two Wounded by Robbers.

FLANDREAU, S. D., Jan. 22.—Four
masked men broke into the house of
Andrew Erickson, about 14 miles south-
east of Flandreau, and demanded his
money. Being told he had none, they
badly wounded him and his son.

A Victim of a Runaway.

SAN FRANCISCO, Jan. 22.—A. Page
Brown, a leading architect, has died at
Burlingame from injuries received in a
runaway accident last October. He was
a son-in-law of Judge Roger A. Pryor of
New York.

Dined With the Queen.

LONDON, Jan. 22.—Rear Admiral
Dale, who has been assigned to the
command of the flying squadron, dined
with the queen last night. The squad-
ron is expected to sail today.

Nominated to Succeed Gibson.

ANNAPOLIS, Md., Jan. 22.—Congress-
man George E. Wellington has been
nominated by the Republican legislative
caucus to succeed Charles H. Gibson in
the United States senate.

Accused of Embezzlement.

BEATRICE, Neb., Jan. 22.—The county
attorney has filed a warrant in justice
court, charging J. W. Williams, presi-
dent of the defunct Blue Springs bank,
with embezzlement.

Viscount Muira Acquitted.

YOKOHAMA, Jan. 22.—Viscount Muira,
formerly Japanese minister to Korea,
and the others charged with complicity
in the Korean coup d'etat, have been
acquitted.

General Heaton Dead.

PORTLAND, Ore., Jan. 22.—Joseph Hor-
ace Heaton, major and brevet brigadier
general, U. S. A., retired, has died here,
aged 84.

GOMEZ ADMIRES PATRIOTS.

He Refuses to Destroy the Estate of an
Aged Spanish Patriot.

HAVANA, Jan. 22.—An incident of
Maximo Gomez's countermarch through
Havana Province is reported. The other
day he was encamped with 3,000 men at
the plantation of Amalia. While there
he sent for the administrator of Portu-
galite and told him that he came to de-
stroy Portugalite with dynamite, in view
of its disobedience of his orders against
grinding sugar cane.
But, he added, if the garrison should
retire from the plantation he would
agree not to dynamite it. This was
agreed to and the garrison retired, but
only as far as San Jose. Portugalite is
a fine estate, and Gomez has given a
written order not to burn it, out of re-
spect to the administrator and owner,
the prominent and aged Spanish patriot,
Manuel Calve.

ENGLISH FLYING SQUADRON.

No Menace to Any Country Intended by
Its Mobilization.

LONDON, Jan. 22.—Rt. Hon. C. J.
Goschen, first lord of the admiralty,
addressing the Conservatives at East
Grinstead, complimented the admiralty
staff upon their splendid organization.
He declared that no menace to any
country was intended by the formation
of the flying squadron.

"It will be ready," he continued, "for
any emergency, and will remain under
the orders of the admiralty rather than
of the foreign office. The disposition of
it will be guided by naval, not political,
considerations."

Three Firemen Crushed.

ST. LOUIS, Jan. 22.—The four-story
building at 418 Broadway, occupied by
Aloe & Co., opticians and dealers in
surgical and electrical instruments, has
been burned. Loss, \$250,000. Three
firemen who were working in the base-
ment were crushed beneath falling
floors, and are thought to be fatally in-
jured, if not dead.

Unimportant Senate Session.

WASHINGTON, Jan. 22.—The senate put
aside finance and foreign affairs and
gave the day to work on comparatively
minor bills on the calendar. About 70
bills were passed, clearing the calendar
of much accumulation and leaving only
important measures pending. The Cu-
ban question received brief and incon-
clusive attention.

Archbishop Kain's Pallium.

ST. LOUIS, Jan. 22.—A cable from
Rome to Archbishop Kain announces
that the pallium, the insignia of his
archbishopal rank, is now on its way to
St. Louis. The papal messenger, Bishop
Stanley of South Dakota, and his
precious burden will arrive here next
Tuesday.

Get a One-Cent Rate.

MINNEAPOLIS, Jan. 22.—The local
Knights of Pythias have played a trump
card in their game for cent-a-mile rate
for the national encampment next sum-
mer by the announcement that the Soo
line and its connections had agreed to
grant the much-wanted rate.

The Clothier, Hatter and Furnisher, Will Save You Money.

We feel kind of lonesome since Christmas. We had gotten used to the scramble and hustle of the holiday times, and the after-quiet makes us feel as if we had been dumped in the middle of a prairie. Rent and a hundred other expenses go on just as before, and as we can't make money anyway, we might as well lose it with a crowd as in solitude. So here goes prices to make things hum at our store in the Diamond. Come in and look through our superb stock of Overcoats, pick out one to suit you, and deduct one-fourth off the price. For example, if a coat is marked \$16 take it along at \$12; or if marked at \$8 take it along at \$6. In our suit and pants department we will make you reductions that will open your eyes. Come at once as our stock must be reduced.

The ATLANTIC TEA COMPANY We Lead; let those who can follow.

WE ASKED THE FIRST

And May Get a Company of the Naval Militia.

APPLICATION MADE YESTERDAY

Adjutant General Axaline Now Has it on File in His Office—The Powers at Washington Will Help if Necessary—No Trouble About Men.

If the bill now before the legislature providing for the establishing of a naval reserve in Ohio ever passes, this city will probably get a company. The movement has been on for some time and a number of young men are interested in the proposed organization. They have thought a station could be established here and a company organized without a great deal of trouble. With that end in view they have made formal application to Adjutant General Axaline, asking him to locate here one of the companies. The application was sent to Columbus yesterday afternoon, and upon reaching its destination will be placed on file. When the bill is passed, should that time ever come, the applications will be considered in their order, and the priority of the request from this city will likely go far toward having a company located here. As near as is known the application from this city is the first made in the state. Influence in Washington may be used to make the company a surety. The papers were made out and sent to Columbus by George Simms. There will be no fear of not filling the roll. A number of young men have already signified their intention of joining, and as the enlistment blanks only provide for 80 men in a company, it is expected the number can easily be obtained.

A New Pole.
When the old warehouse of the Standard company was moved it was found necessary to remove some of the wires of the city system, and a pole was planted near the fire station. It is expected the system will now work better than ever.

A Ball Player's Visit.
Edward Beadle, of Irondale, was in town today calling on friends. He is a professional ball player, and will this year play with Jersey city or Atlanta, both clubs being after him. Mr. Beadle is a pitcher who won fame with the Columbus club last year.

Trades Council Tonight.
Trades council meets this evening, and some of the leaders say there is business of importance to be transacted. As yet no names for the labor ticket have been made public, but there will probably be some developments in the future.

Musical Concert.
A fine musical concert will be given at the United Presbyterian church, Calcutta, on Friday evening, Jan. 24th. Admission 25 cents. Concert under control of Professor Myers, of Cleveland. Public cordially invited.

Sued an Industry Man.
The River Mills company, of Philadelphia, today entered suit in the court of Squire Manley to secure a judgment against O. E. Aber, of Industry, Pa. They want \$45.20 for grain purchased by the defendant.

MacKenzie's gallery is turning out elegant work at \$1.50 per dozen. The photos are first-class, and work is given you promptly at time promised. Don't climb stairs. Take elevator and step off into handsome studio.

All is Quiet Today.
There were no arrests last night and city hall is very quiet today. The police have had less to do than for several months. Not even a plain drunk was seen on the streets last night.

Beautiful carbonettes at MacKenzie's gallery. Superior to anything in the city.

Raised the Quarantine.
The quarantine at the residence of Abe Burlingame in the upper part of the city has been raised, and the house will be fumigated tomorrow. There was a case of diphtheria there.

MacKenzie makes a specialty of fine crayon work, guaranteed, at very low prices.

Bought a Dog.
James Waggle, of West Market street, has purchased from a dealer in Wheeling a fine fox terrier. It cost him \$50, and will be entered at the dog show next month.

The chicken pie social, Young Men's Christian association, Jan. 28.

John Minto's Claim.
John Minto, the candidate for street commissioner, is the same John Minto who lost one of his hands in an accident at a planing mill a year ago.

Located the Dog.
Several weeks ago some thief stole a good dog from Officer Whan, and the Kennel club took up the matter. The dog was located in Steubenville, and proceedings may be entered against the man who has it.
But just now are actually underselling ourselves. We have too many winter boots and shoes, and to sell them, have cut prices down to half their worth. Seeing is believing. Come in.
FRANK. SHUMAKER & Co.

Levied on the Goods.
Constable Lyon today levied on the goods and chattles of J. N. Baxter to satisfy the judgment recently given the Union Planing Mill company in the court of Squire Rose. They will be sold at auction.

Out For Business.
T. L. Potts left today for the east in the interests of the Union pottery. Harry Murphy went east today, taking with him the samples of the Sebring company. He will make a long trip.

Salineville Man Dead.
Andrew Brothers, a well known hotel man of Salineville and one of the most prominent horsemen of the county, died last night from pneumonia. He was well known in this city.

For County Recorder.
W. R. Johnson, of Elk Run township, was in town today looking over the ground and locating his friends. Mr. Johnson is an intelligent farmer, and is working hard for the place.

The great majority of men and women, of even very much more than ordinary intelligence, pay no attention whatsoever to the well established rules governing the preservation of health. Simple symptoms of indigestion or slight disarrangements of the stomach or system are treated by them as trivial happenings, having no weight or bearing upon their general health. In this seeming neglect or too much over confidence in their own robustness lies the greatest mistake of their lives, as it is invariably from these little ailments giant chronic diseases spring. To guard fully against such evils, use Libby's Phosphatic Beef, Iron and Wine; the only true tonic to the stomach system, system and nerves, perfect strength and tissue producer, and new rich blood matter. Go or send for it to Alvin H. Bulger, druggist, Sixth and West Market.

Improving Slowly.
Joseph Laughlin, of Calcutta, is improving but slowly, although he is now in a fair way to recover from the results of an accident whereby he was thrown from his buggy.

Another Car.
Another of the new cars is almost ready for the electric line and will soon be added to the equipment. Other cars will be shipped from Cleveland during the week.

All Free.
Those who have used Dr. King's New Discovery know its value, and those who have not, have now the opportunity to try it free. Call on the advertised druggist and get a trial bottle free. Send your name and address to H. E. Bucklen & Co., Chicago, and get a sample box of Dr. King's New Life pill free, as well as a copy of Guide to Health and Household Instructor, free. All of which is guaranteed to do you good and cost you nothing. The W. & W. pharmacy. 4

Mr. Thomas is Better.
Mr. Richard Thomas, who has been very ill at his residence on Seventh street, is much improved, and it is thought that he will be able to be out in a few weeks.

Bucklen's Arnica Salve.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by the W. & W. pharmacy.

Arrested by a Wellsville Officer.
A Wellsville officer came to the city last night and arrested a man who lives in this place. His offense could not be heard today.

There is good reason for the popularity of Chamberlain's Cough remedy. Davis & Buzard, of West Monterey, Clarion company, Pa., says: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough remedy and they now recommend it with the rest of us." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

Died in Newark.
Councilman Challis has been notified of the death of his niece, Miss Mazie Smith, at Newark, N. J. She was afflicted with consumption.

MANUFACTURERS IN SESSION.

Important Subjects Under Consideration at the Convention at Chicago.

CHICAGO, Jan. 22.—The first annual convention of the National Association of Manufacturers is in session at Central Music hall, fully 500 delegates being present from all sections of the country and representing every branch of trade.

Among the principal subjects to be discussed are the devising of ways and means for the re-establishment of reciprocal trade agreements with foreign countries, the recognition and control of the Nicaraguan canal by the United States, the extension of the United States commercial marine and the establishment in South American capitals and other desirable points of expositions for the display of American products. Nearly all the delegates are strongly in favor of the exclusive control of the Nicaraguan canal by the United States, and it is probable that strong resolutions on that subject will be introduced. Recognition of the Cuban rebels will likely be urged.

The references of President Dolan in his address to the policy of protection to American industries, the need of a more equitable tariff and the advantage to be obtained by a return to the reciprocity system of trade with foreign countries were greeted with especial enthusiasm.

MISSIONARIES IN DANGER.

A Proclamation Against Them Posted in a Chinese Province.

SAN FRANCISCO, Jan. 22.—The steamer Coptic from Yokohama brings the following advice: "The China Mail says: Another proclamation of the vilest nature has been posted throughout the province of Yunnan, inciting the people to murder all missionaries against whom disgusting and disgraceful charges are reiterated. The matter is of the gravest importance and the whole of the powers ought to insist upon the punishment of the officials of the province. The Japanese Gazette says three Koreans, tried for complicity in the murder of the Korean queen, have been found guilty and hanged."

Opposes Free Homestead Act.
WASHINGTON, Jan. 22.—The house committee on public lands has received from Secretary Smith a strong adverse report against the free homestead bill. The bill absolves all persons completing five years' residence on the lands taken and occupied under the homestead laws from making further payment to secure their title other than fees incident to filing and obtaining proof. Land office officials estimate its passage would involve at least \$30,000,000 of cost to the government and \$18,000,000 to Oklahoma alone.

Gold Reserve Heavily Reduced.
WASHINGTON, Jan. 22.—The treasury has lost \$2,500,000 in gold bars for export, \$85,000 in coin and \$14,000 in jewelers' bars, making the total loss for the day \$2,599,000. This reduces the gold reserve to \$50,790,129.

Bayard and Chamberlain to Attend.
LONDON, Jan. 22.—The secretary of state for the colonies, Mr. Joseph Chamberlain, and the United States ambassador, Mr. Thomas F. Bayard, have accepted invitations to dine with the Bouchers at Gray's inn.

New Manager For the Browns.
ATLANTIC CITY, N. J., Jan. 22.—Henry H. Diddleback of Philadelphia has been signed here by President Von der Ahe as manager of the St. Louis baseball team.

Senator Allison Re-Elected.
DES MOINES, Jan. 22.—The legislature has re-elected United States Senator Allison.

Free Pills.
Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of constipation and sick headache. For malaria and liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25 cents per box. Sold by the W. & W. pharmacy. 4

Still in Business.
I am still in the undertaking business, and all persons who desire my services should call at my residence 182 Second street, or at the Standard Livery, Seventh street.

WE CAN'T BE WHIPPED

This Is Suave Dr. Chauncey Depew's Opinion.

SHOULDN'T MISUSE OUR POWER.

The United States Should Try to Be an International Arbitrator—The President's Message Invites Lots of Trouble—Interesting Address to Lawyers.

ALBANY, N. Y., Jan. 22.—Hon. Chauncey M. Depew's address on "Patriotism and Internationalism—The Lawyer's Duty" before the State Bar association, was a notable effort. In part, he said:

"The events of the past few weeks have demonstrated how easy it is to arouse the fighting blood among our own people. A generation has come upon the stage since the civil war who are eager for battle.

"Now is the time for the legal profession to perform a great work upon the lines of the lawyers of the centuries in promoting international arbitration. The present dispute between the English-speaking races which is agitating the world calls for both practical wisdom and legal acumen for its solution. There is no dissent in this country from the Monroe doctrine as promulgated by President Monroe and interpreted by Jefferson, Madison, Webster and Calhoun.

"Yet anyone who studies the Monroe doctrine will see how, in each individual case, except where there is a flagrant violation like the French invasion of Mexico, the applicable interpretation of it should be the subject of judicial determination. The president's message to congress presents a novel view of the principle. If there is a dispute as to the boundary line between a South American republic and a European power, no matter how insignificant the territory involved or how distinctly it affects the independence of the country or how remotely it may interest us, we must demand that the two governments arbitrate the line, and if they refuse, we must find out, as best we can, what the line is and enforce it by war. If, however, pending our inquiry, the two parties agree, we have no further rights or duties. This seems to surrender the doctrine, if Venezuela or Brazil chooses to sell a portion of its territory.

A slight extension of the principle compels us to assume a protectorate over all these republics. Their enterprises and industries are almost entirely owned or controlled and carried on by Americans, English, Germans, French and Italians. Their governments are in almost perpetual revolution, and the military dictator of the hour confiscates property right and left, except that of foreigners. If he could rely upon the United States to protect him, he would treat the foreigners the same way, and at his whim we would be continually in trouble with foreign countries demanding reparation. This would require an immense navy and large standing army.

"The United States is the only nation so situated that it can with honor and safety move upon the pathway of peace for an international court of arbitration. We have no fear of the countries to the south or the north of us, and it is 3,000 miles across the ocean to the nearest seaport of any European power. So great has been our prosperity, because of 102 years of peace and only five of war, so free have we been from the strifes which have exhausted the resources of Europe, that the taxing power of the government has not yet touched for any purpose the real and personal property represented in these \$70,000,000,000 of accumulated wealth. According to the census of 1890, we have 9,200,000 fighting men.

"The experience of the civil war has shown that from them could be drafted, mobilized and instructed in three months 3,000,000 soldiers. All the transports and navies of the world could not land upon our shores an army which could march 100 miles from the seacoast or ever return to their ships. With all the world in arms against us, the vast interior of our continent, except in its industrial and economic phases, would know nothing of the trouble and never see a foreign uniform—except on a prisoner of war. Secure in our isolation, supreme in our resources, unequalled in our reserves and free from dangerous neighbors, we occupy among the nations of the globe a position so exalted and safe that to compare us with other countries would be absurd. The statesman or the politician who really fears for the safety of this country is a fool, or who does not fear and preaches it is a demagogue.

"This great reservoir of force for all purposes—the American republic—this mightiest engine of war and most beneficent power for peace on the face of the globe can extend the right hand of fellowship to warring brethren across the Atlantic, and promulgate with honor and dignity a scheme for an international tribunal and lead in the movement.

"We, the lawyers of the United States and our brethren, the lawyers of Great Britain, faithful to the traditions of our profession and the high calling of our order, can agitate and educate for the creation of this great court."

LORD DOUGLASS' PLIGHT.
His Orchestra Leader Attacks Him and He Is Arrested.
ORVILLE, Cal., Jan. 22.—Lord Sholto Douglass, son of the Marquis of Queensbury, is not having an easy time as the manager of a theatrical troupe. When Lady Douglass, nee Mooney, gave her song and dance act here Lord Douglass rushed upon the stage crying: "My wife cannot sing to such music as that."

The audience hissed and later the leader of the orchestra, meeting Douglass on the street, asked if he wanted trouble. Lord Douglass answered in the negative, whereupon the musician attacked Douglass, striking him as he was entering a carriage. Lady Douglass made a great outcry and both Douglass and the musician were arrested. Douglass was subsequently released and the orchestra leader held for trial.

Not Credited by Cubans.
MEXICO CITY, Jan. 22.—Leading Cubans here do not credit the rumor that Spain intends to sell the island to England.

TIM BYRNES SAYS NO.

Denies His Election Was Caused by an Allison-McKinley Alliance.

St. Louis, Jan. 22.—A local paper says: The easy victory won by Colonel Tim Byrnes of Minneapolis for sergeant-at-arms of the Republican national convention means more than a personal triumph or the recognition of section. It means that there is a distinct agreement among the McKinley and Allison managers to help one another. This information, it is stated, is given out by one of Mr. Byrnes' closest friends.

The following resolution was adopted unanimously by the committee: Resolved, That the 500 admission tickets to the Republican national convention set apart for the Grand Army of the Republic be turned over to the members of the council of administration of that organization representing the several states and territories for distribution at the said convention on the basis of the membership of the said organization in each state and territory.

Colonel Byrnes was shown the statement, and had this to say: "The story has no foundation. In fact, my selection as sergeant-at-arms was not brought about as the result of a combination between McKinley and Allison managers. Politics had nothing whatever to do with the matter. It was my personal friendship with the members of the sub-committee that secured me the position."

A DEADLY EXPLOSION.

Three Men Killed and Four Injured at New Haven, Conn.

NEW HAVEN, Jan. 22.—Three men were killed and four received serious injuries by the explosion of an acetylene gas receiver in the four-story brick building owned by English & Mersick and occupied by the owners, who were engaged in the manufacture of carriage hardware, and F. P. Pfeigar & Co., hardware manufacturers. The building and contents burned. Loss, \$100,000.

The dead are: Joseph Hauser, machinist, William Stevens, bookkeeper, and Toof, workman.

The injured are: James T. McNeil, machinist, badly cut about head and shoulders; F. P. Pfeigar, badly burned; Alexis Krah, foreman, burned about head and upper portion of the body, and Frank C. Richter, laborer, bruised and cut.

Governor Clough Let Out.

St. Paul, Jan. 22.—S. A. Anderson, the attorney for the plaintiffs in the suits brought for \$75,000 damages against Governor D. M. Clough, Tams Bixby, his private secretary, D. R. Noyes, president of the Humane society, and T. L. Wilson, in connection with the suppression of the Needham-Moore prizefight, has decided to dismiss the actions so far as Governor Clough and Tams Bixby are concerned.

Urgent Deficiency Bill Passed.

WASHINGTON, Jan. 22.—The house has passed the urgent deficiency bill. The bill carried \$4,415,922, \$3,242,582 of which was for expenses of United States courts. The abnormal growth of the expenses of federal courts came in for a good deal of criticism and there was a general expression in favor of a salary system.

Vote For Kentucky Senator.

FRANKFORT, Ky., Jan. 22.—The vote in the two houses of the legislature for senator is as follows: Hunter (Rep.) 67; Blackburn (Dem.) 58; Carlisle (Dem.) 4; McCleary (Dem.) 3; Buckner (Dem.) 4; Stone (Dem.) 1; A. E. Wilson (Rep.) 1; C. E. Bate (Pop.) 1.

He Hauled Abraham Lincoln.

WASHINGTON, Jan. 22.—George W. Feeney, aged 61 years, one of the oldest and best known locomotive engineers in the country, is dead. He was the engineer of the locomotive that drew Abraham Lincoln to Washington for his inaugural in 1861.

Governor Griggs Inaugurated.

TRENTON, Jan. 22.—The inauguration of John W. Griggs as governor of New Jersey has taken place in the presence of the members of both branches of the legislature and a large concourse of people.

Killed Two Desperados.

CHATTANOOGA, Tenn., Jan. 22.—A posse of ten Hamilton county deputy sheriffs has shot and killed John and Thomas Mossengale, two mountain desperados, wanted for murder and horse-stealing in the Raccoon mountains.

GEN. EWING'S DEATH.

Great Surprise Caused by It in New York.

HE WAS EXPECTED TO RECOVER.

The Ohioan Struck by a Cable Car and Received Injuries Which Were Not Considered Fatal—The Story of His Notable Career.

NEW YORK, Jan. 22.—The death of General Thomas Ewing, ex-member of congress from Ohio, caused great surprise, as his injuries were not considered fatal. Nevertheless, although his physicians were hopeful, he rapidly became worse and expired.

General Ewing's death was the result of injuries received accidentally, which was mentioned in these dispatches yesterday. He had left his home intending to go down town by the elevated road. As he reached Third avenue a cable car passed and he stepped directly behind it, not noticing that one from the opposite direction was right upon him. The corner of the car struck him and threw him back several yards. He landed on his head. The general was carried to his home.

General Ewing, who was a member of the law firm of Ewing, Whitman & Ewing of this city, was born in Lancaster, O., in 1829. He was admitted to the bar in Cincinnati in 1856 and went to Kansas during the free soil struggles. When the state of Kansas was admitted to the Union he was appointed chief justice, but resigned to enter the Union army in the civil war as colonel in the Eleventh regiment of Kansas. He rose to the rank of brigadier general and afterward was brevetted major general, and had command of the department of the Missouri.

He went to Washington in 1866 as the assistant of ex-Secretary of the Interior Browning. He went back to Ohio in 1870 and entered politics. He was a member of congress from 1877 to 1881, and in 1879 ran for Governor on the Democratic ticket, but was defeated. In 1881 he came to New York to practice law. For many years he was president of the Ohio society here. He was at one time counsel to the building department, which position he resigned on Jan. 1 last. General Ewing had five children, all grown. Mrs. Ewing is still living.

OHIO LEGISLATURE.

Congress Memorialized for the Election of United States Senators by the People.

COLUMBUS, Jan. 22.—The senate has concurred in house joint resolution memorializing congress to submit a constitutional amendment to elect United States senators by popular vote.

Senator Shryock introduced a resolution to be referred to congress asking for free mail delivery for small towns instead of reduction in postage.

The resolution to Lexow county officials at Cleveland was concurred in as amended by the house.

The following bills were introduced in the house: Amending mechanics lien law by omitting requirement to file copy of plans.

Authorizing probate courts to restore worn-out indexes.

Repealing the Workman school law, which provides for only one director in each sub-district, and re-enacting the three director law.

Fixing the standard of milk.

Abolishing the three days of grace.

Giving hamlets power to control water supply.

Requiring traction engines to fire with coal.

Providing for grading burglary into three degrees.

Mr. Plummer introduced a resolution requiring all covered bridges to be well lighted to prevent robberies.

ANTI-SALOON CONGRESS.

Ohio Opponents of Liquor in Session at Columbus.

COLUMBUS, Jan. 22.—The Ohio anti-saloon congress has opened in this city with two big meetings, one at the board of trade auditorium and the other at the First Congregational church. At the board of trade Bishop Watson delivered the address of welcome. Rev. Father McCleary of Minneapolis, national president of the Catholic Total Abstinence union, delivered the principal address. He said the saloon was un-American. Foreigners raised a great cry about personal liberty when the saloon was attacked, but none of them knew what personal liberty was until they came here.

At the First Congregational church the principal addresses were made by Rev. Francis E. Clark of Boston, international president of the Christian Endeavor society, and Dr. David H. Moore of Cincinnati. Dr. Clark said he favored the anti-saloon league because it was un-denominational.

Burke Loses His Case.

COLUMBUS, Jan. 22.—The supreme court has reversed the Lucas county court's decision in the suit of Judge Stevenson Burke et al. vs. the Columbus, Hocking Valley and Toledo Railroad company. This means that the railroad company does not have to pay Burke and associates \$800,000 and interest for about eight years because of the claim by Burke that the Toledo and Ohio Central railroad stock was depreciated by the old \$5,000,000 suit against him, brought by John W. Shaw, late president of the Hocking Valley road.

Ohio Postmasters Confirmed.

WASHINGTON, Jan. 22.—The senate in executive session confirmed the following nominations of Ohio postmasters: George T. Roof at Corning, John Riley, Jr., at North Amherst, James Ramage at Gibsonburg, John Nesbitt at Chicago, Andrew J. Ewing at McComb, C. E. Boehme at Germantown.

First-Class Shells Ordered.

PHILADELPHIA, Jan. 22.—The Midvale Steel company has received an order from the government for \$50,000 worth of first-class shells. It is stated that an order for a very large number of lower class shells was given to the Brooklyn Projectile company.

LOCAL BREVITIES.

Born to Mr. and Mrs. Adam Shaw, Thompson avenue, a son.

There is some ice in the river, the stream is low, and there are no boats moving.

Charles Forster has gone to Florida, where he will remain temporarily, on business.

Thomas Young, an employee of the light company, is recovering from a long illness.

Doctor McVoy has received, as a present from a friend in Florida, a handsome opal.

A pleasant evening was spent by a number of guests at the residence of Thomas Hayes, in East End, last night.

The Brunt knob works are running day and night. Business has opened for the year much better than was expected.

Miss Mary Smith, a teacher at the Fourth street school, is ill, and her place is being filled by Miss Alice Deldrick.

A drop sewer is being put in at the junction of Eighth and Franklin streets, which it is hoped will prove of great advantage.

Traffic on the railroad is increasing. Every day the coaches are well filled, and the business from the local office has been increasing.

A child of James Grafton, of Fifth street, was seized with spasms last night and it was feared for a time that it would die. Two physicians were called.

John Housefelt, of this city, is home from Polk, Pa., where he has been in charge of a brick works from which was turned out a large contract for bricks.

An excellent entertainment was given by the Junior league at the Second M. E. church in East End. The little ones were in charge of Miss Pearl Finley.

The office improvements at the freight depot are assuming shape and form and the force think they will have a nice place in which to do their work when it is all done.

The stone being quarried over the river for the bridge is being dressed into cubes of a yard. The contractor has other men at work in Beaver county getting out stone.

Reverend Slaytor went to Steubenville this morning, where he will preach this evening. Reverend Huffer will occupy his own pulpit tonight. The meetings continue at the Christian church with great interest.

Mrs. Susan Latham died yesterday morning at Calcutta and will be buried from the United Presbyterian church of that place tomorrow. Deceased had reached an advanced age, and had many relatives near Hookstown.

Reverend Hosick, who has been conducting gospel meetings in the Second Presbyterian church, was called to Hookstown yesterday by the announcement that Milo Thompson, a member of his church in that place, was dead.

Jacob Hart, of this city, has secured the contract for paving several streets in Sistersville, and will begin the work as soon as the weather will permit. The saloonmen of the city pay such taxes that the town is well paved. Another church will soon be built in the town.

The dance of the Lotus club at the opera house last evening was a delightful affair. In the neighborhood of 200 took part in the grand march, and all were entertained in a delightful manner. The club committees did everything that would add to the pleasure of the evening.

Calcutta has been having music for the past few weeks, until all the people in town feel more or less musical. The church choir, under the direction of Professor Myers, of Cleveland, have been singing every night at the town hall, and on Friday night they will give a cantata at the United Presbyterian church.

George Zink, of Third street, and a party of companions went coon hunting last night, but got no coons. Instead they roused a common cat that had been in the woods so long as to become wild. It afforded good sport for a mile, but was at last run down by the dogs. It was the largest cat the crowd had ever seen, and made a fight when cornered.

Two indignant young women reside on the Calcutta road. They were passing an uptown hotel last night when they were accosted by a pair of strangers, probably drummers, who insisted on going home with them. The girls protested, but the men followed and they hastened home. The fellows should have been arrested, and doubtless would have been had an officer been in sight.

There is a scarcity of filler in throughout the city. The heads of decorating departments in town cannot account for it, but they are finding every day that the demand for this particular kind of labor seems to be greater than the supply. As a rule girls who hold positions of this kind are not hard to get, but just now there seems to be a scarcity, and no one can account for it.

Save You Money.

We feel kind of lonesome since Christmas. We had gotten used to the scramble and hustle of the holiday times, and the after-quiet makes us feel as if we had been dumped in the middle of a prairie. Rent and a hundred other expenses go on just as before, and as we can't make money anyway, we might as well lose it with a crowd as in solitude. So here goes prices to make things hum at our store in the Diamond. Come in and look through our superb stock of Overcoats, pick out one to suit you, and deduct one-fourth off the price. For example, if a coat is marked \$16 take it along at \$12; or if marked at \$8 take it along at \$6. In our suit and pants department we will make you reductions that will open your eyes. Come at once as our stock must be reduced.

And May Get a Company of
the Naval Militia.

APPLICATION MADE YESTERDAY

Adjutant General Axline Now Has It on
File in His Office—The Powers at Wash-
ington Will Help if Necessary—No
Trouble About Men.

If the bill now before the legis-
lature providing for the establish-
ing of a naval reserve in Ohio ever passes,
this city will probably get a company.
The movement has been on for some
time and a number of young men are
interested in the proposed organiza-
tion. They have thought a station
could be established here and a com-
pany organized without a great deal
of trouble. With that end in view
they have made formal application to
Adjutant General Axline, asking him
to locate here one of the companies.
The application was sent to
Columbus yesterday afternoon,
and upon reaching its destination will
be placed on file. When the bill is
passed, should that time ever come,
the applications will be considered in
their order, and the priority of the re-
quest from this city will likely go far
toward having a company located here.
As near as is known the applica-
tion from this city is the first made
in the state. Influence in
Washington may be used to
make the company a surety. The papers
were made out and sent to
Columbus by George Simms. There
will be no fear of not filling the roll.
A number of young men have already
signified their intention of joining,
and as the enlistment blanks only
provide for 80 men in a company, it is
expected the number can easily be
obtained.

A New Pole.

When the old warehouse of the
Standard company was moved it
was found necessary to re-
move some of the wires of the city
system, and a pole was planted near
the fire station. It is expected the
system will now work better than
ever.

A Ball Player's Visit.

Edward Beadle, of Irondele, was in
town today calling on friends. He is
a professional ball player, and will
this year play with Jersey city or
Atlanta, both clubs being after him.
Mr. Beadle is a pitcher who won fame
with the Columbus club last year.

Trades Council Tonight.

Trades council meets this evening,
and some of the leaders say there is
business of importance to be transac-
ted. As yet no names for the labor
ticket have been made public, but
there will probably be some develop-
ments in the future.

Musical Concert.

A fine musical concert will be given
at the United Presbyterian church,
Cincinnati, on Friday evening, Jan.
24th. Admission 25 cents. Concert
under control of Professor Myers, of
Cleveland. Public cordially invited.

Sued an Industry Man.

The River Mills company, of Phila-
delphia, today entered suit in the
court of Squire Manley to secure a
judgment against O. E. Aber, of In-
dustry, Pa. They want \$45.20 for grain
purchased by the defendant.

ing out elegant work at \$1.50

All is Quiet Today.

There were no arrests last night
and city hall is very quiet today.
The police have had less to do than
for several months. Not even a plain
drunk was seen on the streets last
night.

Raised the Quarantine.

The quarantine at the residence of
Abe Burlingame in the upper part of
the city has been raised, and the house
will be fumigated tomorrow. There
was a case of diphtheria there.

MacKenzie makes a specialty
of fine crayon work, guaranteed,
at very low prices.

Bought a Dog.

James Waggle, of West Market
street, has purchased from a dealer
in Wheeling a fine fox terrier. It
cost him \$50, and will be entered at
the dog show next month.

John Minto's Claim.

John Minto, the candidate for street
commissioner, is the same John
Minto who lost one of his hands in an
accident at a planing mill a year ago.

Located the Dog.

Several weeks ago some thief stole
a good dog from Officer Whan, and the
Kennel club took up the matter. The
dog was located in Steubenville, and
proceedings may be entered against
the man who has it.

We Are Never Undersold.

Levied on the Goods.

Constable Lyon today levied on the
goods and chattles of J. N. Baxter to
satisfy the judgment recently given
the Union Planing Mill company in
the court of Squire Rose. They will
be sold at auction.

Out For Business.

T. L. Potts left today for the east in
the interests of the Union pottery.
Harry Murphy went east today, tak-
ing with him the samples of the Se-
bring company. He will make a
long trip.

Salineville Man Dead.

Andrew Brothers, a well known
hotel man of Salineville and one of
the most prominent horsemen of the
county, died last night from pneu-
monia. He was well known in this
city.

For County Recorder.

W. R. Johnson, of Elk Run town-
ship, was in town today looking over
the ground and locating his friends.
Mr. Johnson is an intelligent farmer,
and is working hard for the place.

The great majority of men and
women, of even very much more than
ordinary intelligence, pay no attention
whatsoever to the well established
rules governing the preservation of
health. Simple symptoms of indiges-
tion or slight disarrangements of the
stomach or system are treated by them
as trivial happenings, having no weight
or bearing upon their general health.
In this seeming neglect or too much
over confidence in their own robust-
ness lies the greatest mistake of their
lives, and it is invariably from these lit-
tle ailments giant chronic diseases
spring. To guard fully against such
evils, use Libby's Phosphate Beef, Iron
and Wine; the only true tonic to the
stomach system, system and nerves,
perfect strength and tissue producer,
and new rich blood matter. Go or
send for it to Alvin H. Bulger, drug-
gist, Sixth and West Market.

Improving Slowly.

Joseph Laughlin, of Calcutta, is im-
proving but slowly, although he is
now in a fair way to recover from the
results of an accident whereby he was
thrown from his buggy.

Another Car.

Another of the new cars is almost
ready for the electric line and will
soon be added to the equipment.
Other cars will be shipped from Cleve-
land during the week.

MANUFACTURERS IN SESSION.

Important Subjects Under Consideration
at the Convention at Chicago.

CHICAGO, Jan. 22.—The first annual
convention of the National Association
of Manufacturers is in session at Cen-
tral Music hall, fully 500 delegates be-
ing present from all sections of the
country and representing every branch
of trade.

Among the principal subjects to be
discussed are the devising of ways and
means for the re-establishment of re-
ciprocal trade agreements with foreign
countries, the recognition and control of
the Nicaraguan canal by the United
States, the extension of the United
States commercial marine and the es-
tablishment in South American capitals
and other desirable points of expositions
for the display of American products.

Nearly all the delegates are strongly
in favor of the exclusive control of the
Nicaraguan canal by the United States,
and it is probable that strong resolu-
tions on that subject will be introduced.
Recognition of the Cuban rebels will
likely be urged.

The references of President Dolan in
his address to the policy of protection to
American industries, the need of a
more equitable tariff and the advantage
to be obtained by a return to the re-
ciprocity system of trade with foreign
countries were greeted with especial
enthusiasm.

MISSIONARIES IN DANGER.

A Proclamation Against Them Posted In
a Chinese Province.

SAN FRANCISCO, Jan. 22.—The steam-
er Coptic from Yokohama brings the
following advices: The China Mail
says: Another proclamation of the vil-
est nature has been posted throughout
the province of Yunnan, inciting the
people to murder all missionaries against
whom disgusting and disgraceful charges
are reiterated. The matter is of the
gravest importance and the whole of the
powers ought to insist upon the punish-
ment of the officials of the province.

The Japanese Gazette says three Ko-
reans, tried for complicity in the murder
of the Korean queen, have been found
guilty and hanged.

Opposes Free Homestead Act.

WASHINGTON, Jan. 22.—The house
committee on public lands has received
from Secretary Smith a strong adverse
report against the free homestead bill.
The bill abolishes all persons completing
five years' residence on the lands taken
and occupied under the homestead laws
from making further payment to secure
their title other than fees incident to
filing and obtaining proof. Land office
officials estimate its passage would in-
volve at least \$30,000,000 of cost to the
government and \$18,000,000 to Okla-
homa alone.

Gold Reserve Heavily Reduced.

WASHINGTON, Jan. 22.—The treasury
has lost \$2,500,000 in gold bars for export,
\$65,000 in coin and \$14,000 in jewelers'
bars, making the total loss for the day
\$2,579,000. This reduces the gold re-
serve to \$50,750,129.

Bayard and Chamberlain to Attend.

LONDON, Jan. 22.—The secretary of
state for the colonies, Mr. Joseph
Chamberlain, and the United States
ambassador, Mr. Thomas F. Bayard,
have accepted invitations to dine with
the Benchers at Gray's inn.

New Manager For the Browns.

ATLANTIC CITY, N. J., Jan. 22.—Henry
H. Diddlebock of Philadelphia has been
signed here by President Von der Ahe
as manager of the St. Louis baseball
team.

Senator Allison Re-Elected.

DES MOINES, Jan. 22.—The legislature
has re-elected United States Senator
Allison.
